Robbins, 2011-04-06 Alexis de Tocqueville once wrote that the people reign over the American political world like God over the universe unwittingly casting democracy as the political instantiation of the death of God According to Jeffrey W Robbins Tocqueville s assessment remains an apt observation of modern democratic power which does not rest with a sovereign authority but operates as a diffuse social force By linking radical democratic theory to a contemporary fascination with political theology Robbins envisions the modern experience of democracy as a social cultural and political force transforming

the nature of sovereign power and political authority Robbins joins his work with Michael Hardt and Antonio Negri's radical conception of network power as well as Sheldon Wolin's notion of fugitive democracy to fashion a political theology that captures modern democracy's social and cultural torment This approach has profound implications not only for the nature of contemporary religious belief and practice but also for the reconceptualization of the proper relationship between religion and politics Challenging the modern liberal and secular assumption of a neutral public space Robbins conceives of a postsecular politics for contemporary society that inextricably links religion to the political While effectively recasting the tradition of radical theology as a political theology this book also develops a comprehensive critique of the political theology bequeathed by Carl Schmitt It marks an original and visionary achievement by the scholar the Journal of the American Academy of Religion hailed one of the best commentators on religion and postmodernism

Literature ,1890 Religion After Postmodernism Victor E. Taylor,2008 In this critical examination of the role of the imagination in the modern and postmodern periods Victor E Taylor looks at the fable as a narrative form that addresses the ultimate questions of how to live and why He assesses various literary theories and styles in the wake of postmodernism to reveal the ways in which fable style narrative can be a meaningful genre for addressing traditional and post traditional religious ethical and epistemological concerns In the process Taylor draws on key figures across the humanities from Mircea Eliade and Claude L vi Strauss Paul Ricoeur and Slavoj Zizek to Leo Tolstoy and Franz Kafka Placing an emphasis on rethinking the importance of critical theory in religious studies the author argues that a new more demanding formulation of the concept of possibility allows for a realignment of the philosophical mythological and literary imaginations By returning to the history of philosophy myth studies and modern literature Taylor makes a renewed case for the significance of a distinctive formulation of religious theory as a desire for thinking Religion after Postmodernism calls for a reconsideration of theory as thinking for the future of philosophy religious studies and literature *Christian Register and Boston Observer* ,1925 *The American Catholic Quarterly Review ...* ,1918
