Descartes In 90 Minutes:

Descartes in Ninety Minutes Paul Strathern, 1996-01-01 Rene Descartes spent much of his life in solitude. Fortunately, these countless lonely hours helped Descartes produce the declaration that changed all philosophy: "I think, therefore I am." Convincing himself to doubt and disregard sensory knowledge, Descartes found he could prove his existence through his thoughts alone. This internal reality he believed was the true reality while the external was hopelessly deceiving. In *Descartes in 90 Minutes*, Paul Strathern offers a concise expert account of Descartes's life and ideas and explains their influence on man's struggle to understand his existence in the world. The book also includes selections from Descartes's work, a brief list of suggested readings for those who wish to delve deeper, and chronologies that place Descartes within his own age and in the broader scheme of philosophy.

Spinoza in 90 Minutes Paul Strathern, 1998 A brief and enlightening exploration of Spinoza's life and ideas presented in entertaining and accessible fashion. A highly refined appraisal of the philosopher and his work, authoritative and clearly presented.

Descartes em 90 minutos Paul Strathern, Clara Joana Martins, **A Fever in Salem** Laurie Winn Carlson, 1999-07-20 This new interpretation of the New England Witch Trials offers an innovative, well-grounded explanation of witchcraft's link to organic illness. While most historians have concentrated on the accused, Laurie Winn Carlson focuses on the afflicted. Systematically comparing the symptoms recorded in colonial diaries and court records to those of the encephalitis epidemic in the early twentieth century, she argues convincingly that the victims suffered from the same disease. A unique blend of historical epidemiology and sociology. Katrina L. Kelner, *Science*. Meticulously researched, the author marshalls her arguments with clarity and persuasive force. *New Yorker*.

Ape and Essence Aldous Huxley, 1992-08-01 When Aldous Huxley's *Brave New World* first appeared in 1932, it presented in terms of purest fantasy a society bent on self-destruction. Few of its outraged critics anticipated the onset of another world war with its Holocaust and atomic ruin. In 1948, seeing that the probable shape of his anti-utopia had been altered inevitably by the facts of history, Huxley wrote *Ape and Essence*. In this savage novel, using the form of a film scenario, he transports us to the year 2108. The setting is Los Angeles, where a rediscovery expedition from New Zealand is trying to make sense of what is left. From chief botanist Alfred Poole, we learn to our dismay about the twenty-second century way of life. It was inevitable that Mr. Huxley should have written this book; one could almost have seen it since Hiroshima is the necessary sequel to *Brave New World*. Alfred Kazin. The book has a certain awesome impressiveness; its sheer intractable bitterness cannot but affect the reader.

Time After Many a Summer Dies the Swan Aldous Huxley, 1993-01-01 A Hollywood millionaire with a terror of death whose personal physician happens to be working on a theory of longevity: these are the elements of Aldous Huxley's caustic and entertaining satire on man's desire to live indefinitely. With his customary wit and intellectual sophistication, Huxley pursues his characters in their quest for the eternal, finishing on a note of horror. This is Mr. Huxley's Hollywood novel, and you might expect it to be fantastic, extravagant, crazy, and preposterous. It is all that, and heaven and hell too. It is the kind of

novel that he is particularly the master of where the most extraordinary and fortuitous events are followed by contemplative little essays on the meaning of life The story is outrageously good New York Times A highly sensational plot that will keep astonishing you to practically the final sentence The New Yorker Mr Huxley s elegant mockery his cruel aptness of phrase the revelations and the ingenious surprises he springs on the reader are those of a master craftsman Mr Huxley is at the top of his form London Times Literary Supplement

Philosophy for busy people Read a succinct account of the philosophy of Descartes in just one hour **Philosophy** Michael Boylan,2018-04-17

Philosophy An Innovative Introduction features a unique engaging approach to introduce students to philosophy It combines traditional readings and exercises with fictive narratives starring central figures in the history of the field from Plato to Martin Luther King Jr The book makes innovative use of compelling short stories from two writers who have prominently combined philosophy and fiction in their work These narratives illuminate pivotal aspects of the carefully selected classic readings that follow This gives students two ways to understand the philosophical positions through indirect argument in fiction and through direct deductive presentations Study questions and writing exercises accompany each set of readings and help students grasp the material and create their own arguments *Schopenhauer in 90 Minutes* Paul Strathern,1999
