Desert Patrol:

Desert Raiders Andrea Molinari, 2013-02-20 Although harsh and inhospitable the North African theatre of World War II proved to be a perfect environment for irregular warfare and the deployment of Special Forces Following Italy's entry into the war in June 1940 the Western Desert became the background for a long conflict dominated by motorized units The major combatants Great Britain Free France Italy and Germany all developed irregular units to exploit the unique conditions of the region with varying degrees of success This book details the genesis organization and tactics of these forces including such famous units as the Long Range Desert Group and the Special Air Service *Desert Patrol* Dook, 1989 Desert Operations Readings, 1991 **The Eyes of the Desert Rats** David Syrett, 2014-08-19 Made up of members of the Coldstream and Scots Guards British Yeomanry cavalry regiments New Zealanders South Africans and Indian Army men the Long Range Desert Group was perhaps the most effective of all the special forces established by the Allies during the Second World War It was able to go thousands of miles into enemy territory well armed and carrying its own supplies of petrol food and even water to last for weeks at a time something quite new in military history Using experience acquired in WWI and inter war exploration travels the LRDG thus developed the ability to appear almost anywhere in the desert to carry out almost every type of ground reconnaissance mission possible in desert warfare exploring and mapping the terrain transporting agents behind enemy lines or determining the strength and location of enemy forces with an extraordinary degree of accuracy and detail and thus able to verify or hide Ultra intelligence Equally important were their skills in the art of desert navigation demonstrated in the outflanking of the enemy during the Allied advance from El Alamein westward to Tunisia as led by the LRDG Once it had teamed up with the Special Air Service SAS made up of British Free French Commonwealth and Jewish Palestinian soldiers the LRDG perfected the art of irregular mechanized warfare conducted in the rear of the enemy's forces in the desert attacking enemy installations of all kinds mining roads raiding airfields destroying enemy aircraft on the ground and inflicting losses upon the enemy in inverse proportion to their own remarkably low rate of casualties Through meticulous research in original archival material this book thus tells the extraordinary story of how a relatively small number of dedicated men developed the methods and techniques for crossing by motor vehicle the depths of the then unmapped and seemingly impassable great deserts of Egypt and Libya the Western Desert during the British Army's North African Campaign of 1940-43 The Long Range Desert Group and the Special Air Service as a matter of course did extraordinary things the heroic was the commonplace Their tactics techniques and remarkable success in desert warfare continue to make them of great interest to the student of military affairs Likewise as it seeks to answer how the deep desert can best be used for military purposes this study is pertinent to today's military operations perhaps more so than at any time since World War II this study provides fresh insights into the nature of desert warfare past present and future and reveals the peculiarities of this warfare often lost to modern armies a virtual primer useful to commanders and soldiers alike At long last this book can

collection *The Struggle for the State in Jordan* Jamie Allinson, 2015-01-05 Why do the states of the Arab world seem so unstable Why do alliances between them and with outside powers change Jamie Allinson argues that the answer lies in the expansion of global capitalism in the Middle East Drawing out the unexpected way in which Jordan's Bedouin tribes became allied to the British Empire in the twentieth century and the legacy of this for the international politics of the Middle East he challenges the existing views of the region Using the example of Jordan this book traces the social bases of the struggles that produced the country's foreign relations in the latter half of the twentieth century to the reforms carried out under the Ottoman Empire and the processes of land settlement and state formation experienced under the British Mandate By examining the attempts of Jordan to create foreign alliances during a time of upheaval and instability in the region Allinson offers wider conclusions concerning the nature of the interaction between state and society in the wider Middle East
