A Tale of Two Deserts

Paul T Kidd,2013-09-16 One book two tales one story A Tale of Two Deserts is a literary work most unusual Consisting of two very enigmatic tales set in two deserts separated by two thousand years the book speaks to the contemporary world of that which is in danger of being lost and warns of the dangerous and damaging delusions that are condemning humanity to a bleak future The desert of the first tale being a desert literal is a place where people have very little but most of that which matters The desert of the second tale is a desert figurative where people dominated by collective delusions seemingly have everything but in fact little of what truly matters And running across both tales is a narrative that binds these two tales into one story but it is for the reader to discover this narrative Deeply rooted in concern for the future of humanity A Tale of Two Deserts is a profoundly spiritual book that speaks of the need for humanity to walk a different path and to abandon the ideological perspectives that have turned science religion and western industrial capitalism into self imposed prisons of the mind Here in this book the reader will find a world view that does not close up in fixed opinions and an invitation to begin to learn that of matters most profound

humankind is truly ignorant A Tale of Two Deserts is a message that there is still hope for humanity hope that rests on people beginning to embrace what is in essence a spiritual perspective of life as a never ending journey where there are no final destinations
