Desert And Justice:

Desert and Justice Serena Olsaretti, 2003-07-24 Serena Olsaretti brings together new essays by leading moral and political philosophers on the nature of desert and justice their relations with each other and with other values Does justice require that individuals get what they deserve What exactly is involved in giving people what they deserve Does treating people as responsible agents require that we make room for desert in the economic sphere as well as in the attribution of moral praise and blame and in the dispensing of punishment How does respecting desert square with considerations of equality Does desert like justice have a comparative aspect These are questions of great practical as well as theoretical importance this book is unique in offering a sustained examination of them from various perspectives Desert and Justice, 2023 Serena Olsaretti brings together new essays by moral and political philosophers on the nature of desert and justice their relations with each other and with other values **What Do We Deserve?** Louis P. Pojman, Owen McLeod, 1999 Much of contemporary social and political theory has reduced the concept of desert to a minor role The work of John Rawls is the prime example Recently some philosophers have argued that the notion merits a more central place in social and political theory This reader brings together opposing positions and arguments thus stimulating debate over the meaning and significance of desert in contemporary thought The book includes eight classical and twenty two contemporary readings on the concept *Moral Desert* Howard Simmons, 2010-02-23 In *Moral Desert* Howard Simmons notes that the idea that we deserve to be praised or rewarded for good behavior and blamed or punished when we act badly seems central to everyone's moral deliberation and practices Simmons subjects this assumption to critical scrutiny He argues that in a wide range of cases it is almost impossible to know the extent of people's moral responsibility and indeed that it may be a complete delusion He attacks the still popular theory of retributive punishment with special reference to the views of Peter French and J Angelo Corlett Simmons does not conclude that punishment is always unjustified but insists that any justification should relate to its real world consequences State punishment should be inflicted according to strict consequentialist precepts and the author provides systematic principles for determining an appropriate sentence and for deciding when offenders should be excused He also considers the implications of his views for distributive justice and personal morality *Justice and Desert-Based Emotions* Kristján Kristjánsson, 2017-03-02 The clear message proposed in this book is that justice matters for morality and desert matters for justice and that emotions matter for desert justice and morality Moreover and no less importantly justice education needs to take all those facts into consideration Kristján Kristjánsson's new book falls on the cutting edge of the latest developments in justice discourse both in philosophy and in the social sciences Written from a philosophical perspective it gives an accessible but penetrating exploration of various interlocking and interdisciplinary themes relating to justice Kristjánsson justifies the necessary interplay between philosophers and social scientists dealing with justice probes the role of desert in justice and explains the rising interest in the emotionality of justice He then analyses

the main desert based emotions connects his discussion to recent trends in developmental and social psychology offers a moral justification of desert and desert based emotions and concludes by applying all those ideas in a close study of how justice and desert should be handled in moral education at school Kristj nsson deftly weaves together insights from disparate academic areas relevant for justice in general and desert in particular This is an engaging eye opening and provocative book that should excite anyone interested in justice discourse and help generate debate in different areas related to justice philosophical psychological and educational

Desert Justice Valerie Parv,2010-05-01 Businesswoman Simone Hayes traveled to the exotic land of Nazaar to search for family But instead of having the idyllic vacation she d hoped for she witnessed a murder that had far reaching political implications To escape with her life Simone needed the protection of Nazaar s most powerful man the sheik Accustomed to wielding his authority Sheik Markaz al Nazaari had traits that clashed against Simone s Western independence But while Simone and Markaz came from two different worlds they shared one common passion each other And with an attraction this intense would boundaries or borders keep them apart

Justice and Liberty Goldsworthy Lowes Dickinson,1908

Distributive Justice Fred Feldman,2016 This book presents and defends a novel theory of distributive justice according to which political economic distributive justice reigns in a state if the government of that state ensures that citizens receive the benefits and burdens they deserve from it The book starts with a more precise characterization of the target of this inquiry political economic distributive justice It then proceeds to explicate the concept of desert evaluate proposed ways of justifying desert claims formulate a number of desertist theories of justice and draw out the special features of the version defended here Once the proposed form of desertism has been stated its implications are compared to those of egalitarianism luck egalitarianism sufficientism the difference principle libertarianism and prioritarianism with the aim of showing that desertism yields more attractive results in cases that prove difficult for other theories currently being discussed in the literature Arguments especially arguments deriving from Rawls against desertism are explained and shown to be ineffective There is discussion of the distinction between comparative and non comparative justice Emphasis is placed on the distinction between a theories about the moral rightness of distributions b theories about the intrinsic value of distributions and c theories specifically about the justice of distributions There is discussion of the unfortunate results of confusion of these different sorts of theory The views of Rawls Nozick Parfit Frankfurt Feinberg and others are discussed A version of the method of reflective equilibrium is explained and defended The book concludes with a series of admissions concerning puzzles that remain unsolved

Giving Desert Its Due Wojciech Sadurski,2013-03-09 During the last half of the twentieth century legal philosophy or legal theory or jurisprudence has grown significantly It is no longer the domain of a few isolated scholars in law and philosophy Hundreds of scholars from diverse fields attend international meetings on the subject In some universities large lecture courses of five hundred students or more study it The primary aim of the Law and Philosophy

Library is to present some of the best original work on legal philosophy from both the Anglo American and European traditions Not only does it help make some of the best work available to an international audience but it also encourages increased awareness of and interaction between the two major traditions The primary focus is on full length scholarly monographs although some edited volumes of original papers are also included The Library editors are assisted by an Editorial Advisory Board of internationally renowned scholars Legal philosophy should not be considered a narrowly circumscribed field
