## **Desert Christians An Introduction To The Literature Of Early Monasticism:**

**Desert Christians** William Harmless, 2004-06-17 In the fourth century the deserts of Egypt became the nerve center of a radical new movement what we now call monasticism Groups of Christians from illiterate peasants to learned intellectuals moved out to the wastelands beyond the Nile Valley and in the famous words of Saint Athanasius made the desert a city In so doing they captured the imagination of the ancient world They forged techniques of prayer and asceticism of discipleship and spiritual direction that have remained central to Christianity ever since Seeking to map the soul's long journey to God and plot out the subtle vagaries of the human heart they created and inspired texts that became classics of Western spirituality These Desert Christians were also brilliant storytellers some of Christianity's finest This book introduces the literature of early monasticism It examines all the best known works including Athanasius Life of Antony the Lives of Pachomius and the so called Sayings of the Desert Fathers Later chapters focus on two pioneers of monastic theology Evagrius Ponticus the first great theoretician of Christian mysticism and John Cassian who brought Egyptian monasticism to the Latin West Along the way readers are introduced to path breaking discoveries to new texts and recent archeological finds that have revolutionized contemporary scholarship on monastic origins Included are fascinating snippets from papyri and from little known Coptic Syriac and Ethiopic texts Interspersed in each chapter are illustrations maps and diagrams that help readers sort through the key texts and the richly textured world of early monasticism Geared to a wide audience and written in clear jargon free prose Desert Christians offers the most comprehensive and accessible introduction to early monasticism

**Desert Christians** William Harmless, 2004 This examination of the development of monasticism in the deserts of Egypt is based on the study of its texts written by some of Christianity's finest storytellers Although the book is structured around certain texts and authors it is full of information about historical background and archaeological discoveries Focusing on the period between 300 and 451 William Harmless examines in detail the works of specific writers including Antony and Pachomius the Desert Fathers Evagrius Ponticus and John the Cassian Harmless examines each text in detail making comparison with earlier and contemporary works and presents a full bibliography of primary and secondary sources

**Medieval Monasticism** C.H. Lawrence, Janet Burton, 2023-09-28 Medieval Monasticism traces the Western Monastic tradition from its fourth century origins in the deserts of Egypt and Syria through the many and varied forms of religious life it assumed during the Middle Ages It explores the relationship between monasteries and the secular world around them For a thousand years the great monastic houses and religious orders were a prominent feature of the social landscape of the West and their leaders figured as much in the political as on the spiritual

map of the medieval world In this book many of them together with their supporters and critics are presented to us and speak their minds to us We are shown for instance the controversy between the Benedictines and the reformed monasticism of the twelfth century and the problems that confronted women in religious life A detailed glossary offers readers a helpful vocabulary of the subject This fifth edition has been revised by Janet Burton to include an updated bibliography and an introduction which discusses recent trends in monastic studies including reinterpretations of issues of reform and renewal new scholarship on religious women and interdisciplinary and multidisciplinary approaches This book is essential reading for both students and scholars of the medieval world

**Pre-benedictine Monasticism** Thomas Merton, 2006 Thomas Merton's two series of Pre Benedictine Monasticism conferences form both a supplement and a sequel to Cassian and the Fathers the first volume of Merton's conferences for novices to be published in the Monastic Wisdom series Part One not only includes fresh insights on such leaders of early monasticism as Anthony Pachomius Basil and Cassian but also considers long overlooked key figures like Martin of Tours Shenoute of Atripe Melania the Younger and the pilgrim nun Egeria In Part Two Merton writing at a time when little attention was generally given to these significant but neglected sources extends his investigations of early monastic life to the Syriac tradition These conferences or lectures edited from Merton's own typescripts make available his keen observations on the earliest phases of Christian monasticism and also provide important background material for a number of his essays among them *From Pilgrimage to Crusade and Rain and the Rhinoceros*

current debate about the usefulness of Egyptian hagiography as a historical source for late antique Egypt and to the study of the reception of the desert fathers in the medieval West

**Cassian and the Fathers** Thomas Merton, 2005 Cassian and the Fathers is the initial volume in the series of Novitiate Conferences of Thomas Merton the classes he presented to young men beginning their monastic life at the Abbey of Gethsemani in Kentucky They contain Merton's insights on important Patristic and monastic figures preceding the time of St Benedict above all John Cassian the most significant bridge between the early desert fathers and the development of monastic life in the West and they reveal the continuing relevance of their teachings for contemporary monastics and other Christians Much of the value and interest of Cassian and the Fathers as of the novitiate conferences in general lies in the light it casts on Merton himself as teacher novice master and monk These notes provide a privileged standpoint for observing Merton functioning as an integral and important member of his monastic community The public Merton has long been visible in his works written for publication and has more recently been complemented by the interpersonal Merton disclosed in his correspondence and the intimate Merton revealed in his complete journals While the novitiate conferences may not equal in significance these other sources they do allow access to yet another stratum of Merton's wide ranging and immensely productive engagement with his world from the distinctive standpoint he had chosen within a tradition dating back more than sixteen centuries While these lectures need to be used critically and carefully in evaluating Merton's own perspectives and commitments nevertheless they do need to be used The dialectical relationship between Merton's private and more public statements including those made to his novice classes makes possible a more complex and thus a richer picture of his monastic identity and so of his personal identity In learning about Cassian and the Fathers from Merton one learns as well about Merton as monk as heir to the great monastic teachers and as teacher of a new generation of monks an easily overlooked and undervalued yet integral even central component of his vocation for more than half his monastic life Thus the publication of the novitiate conferences will fill a significant lacuna in Merton studies and contribute to a balanced holistic comprehension and appreciation of Thomas Merton's life and work

This edition includes an extensive introduction situating these conferences and Merton's years as novice master in the context of his broader life as monk and writer an extensively annotated edition of the text of the conferences based on Merton's own typescript and helpful appendices indicating changes Merton made to his text correlating the written text with taped versions of the actual classes and providing suggestions for further reading both in Merton's other works and in more recent studies of the figures he discusses here

Miller (II.), 2009 Seven distinguished Catholic theologians address the topic of Women and the Shaping of Catholicism at the Sixth Annual Conference on the Catholic Church in the 21st Century in Kansas City in 2008 Catholic *The Downside Review*, 2007

**Philae and the End of Ancient Egyptian Religion** Jitse H. F. Dijkstra, 2008 The famous island of Philae on Egypt's southern frontier can be considered the last major temple site where Ancient Egyptian religion was practiced According to the Byzantine historian Procopius in 535-537 CE the Emperor Justinian ordered one of his generals to end this situation by destroying the island's temples This account has usually been accepted as a sufficient explanation for the end of the Ancient Egyptian cults at Philae Yet it is by no means unproblematic This book shows that the event of 535-537 has to be seen in a larger context of religious transformation at Philae which was more complex and gradual than Procopius describes it Not only are the various Late Antique sources from and on Philae taken into account for the first time the religious developments at Philae are also placed in a regional context by analyzing the sources from the other major towns in the region Syene Aswan and Elephantine The author situates his material into its wider historical context and does this so effectively that what begins as a very specific study of a local problem expands to consider the transitions from paganism to Christianity in Egypt as a whole and stands as one of the most important studies of this topic to date This well written and

deeply learned book is a tour de force of regional religious history that will also be essential reading for anyone interested in indigenous religion and early Christianity in this time of transition Terry Wilfong in Bulletin of the American Society of Papyrologists     *Patristic Sources and Catholic Social Teaching* Brian J. Matz, 2008 The fact that over one hundred patristic sources may be found in the documents of Catholic social teaching CST would suggest that patristic sources have not been forgotten as the title to this book suggests Yet this study of every patristic source citation in twenty one CST documents since the late nineteenth century suggests that just such a conclusion should be drawn The CST documents in this study largely ignored the historical and literary contexts of the patristic sources and this had the concomitant effect of limiting appropriation of the fullness of their arguments In addition most of the patristic citations do not reflect the socio ethical concerns of the patristic authors themselves Even when the patristic citations supported related theological themes usually they were relegated to footnotes This is not a study of themes or of theologies in the CST documents nor is it a study of the cultural and historical forces at work in the arguments made by those who drafted them Rather it is a study of the rhetorical theological and or pastoral function of each patristic source citation in the CST documents In this respect each CST document stands on its own as a rhetorical tour de force For that reason the study concludes with a vision for the fair use of patristic sources in future CST documents     **Byzantium and Islam** Brandie Ratliff, Helen C. Evans, Metropolitan Museum of Art (New York, N.Y.), 2012 A groundbreaking investigation of the extraordinary art and material culture of the southern provinces of the Byzantine Empire during the momentous 7th to 9th century
