Desert Garden Margin Range:

Desert, Garden, Margin, Range Eric Heyne, 1992 Paradise the narrow edge of civilization or a vast spread of open territory the frontier has never failed to fire our imaginations and fuel our endeavors The best American writers have always built upon and simultaneously questioned this intimate relationship In Desert Garden Margin Range ten essays examine the wide variety of ways in which literature has explored the frontier The first five selections discuss traditionally canonical works by writers such as Aryan Cowboys Evelyn A. Schlatter, 2009-06-03 During the last third of the twentieth century white supremacists moved both literally and in the collective imagination from midnight rides through Mississippi to broadband wired cabins in Montana But while rural Montana may be on the geographical fringe of the country white supremacist groups were not pushed there and they are far from fringe elements of society as many Americans would like to believe Evelyn Schlatter's startling analysis describes how many of the new white supremacist groups in the West have co-opted the region's mythology and environment based on longstanding beliefs about American character and Manifest Destiny to shape an organic home grown movement Dissatisfied with the urbanized culturally progressive coasts disenfranchised by affirmative action and immigration white supremacists have found new hope in the old ideal of the West as a land of opportunity waiting to be settled by self-reliant traditional families Some even envision the region as a potential white homeland Groups such as Aryan Nations The Order and Posse Comitatus use controversial issues such as affirmative action anti-Semitism immigration and religion to create sympathy for their extremist views among mainstream whites while offering a solution in the popular conception of the West as a place of freedom opportunity and escape from modern society Aryan Cowboys exposes the exclusionist message of this American ideal while documenting its dangerous appeal Borders, Boundaries and the Bible Martin O'Kane, 2002-01-01 This collection focuses on the interdisciplinary nature of current biblical studies especially the interpretation of the Bible through the arts Its aim is to illustrate how the crossing of boundaries enriches our understanding of the text itself Contributors include Robert Carroll Mary Douglas Wendy Porter Edward Kessler Larry Kreitzer John Hull and Martin O'Kane The themes embrace literature Kipling music Bach and art Holbein The editor contributes an introduction and an illustrated essay on the Flight into Egypt as an icon of refuge Northern Experience and the Myths of Canadian Culture Renée Hulan, 2002 In Northern Experience and the Myths of Canadian Culture Renée Hulan disputes the notion that the north is a source of distinct collective identity for Canadians Through a synthesis of critical historical and theoretical approaches to northern subjects in literary studies she challenges the epistemology used to support this idea By investigating mutually dependent categories of identity in literature that depicts northern peoples and places Hulan provides a descriptive account of representative genres in which the north figures as a central theme including autobiography adventure narrative ethnography fiction poetry and travel writing She considers each of these diverse genres in terms of the way it explains the cultural identity of a nation formed from the settlement of immigrant peoples on the lands

of dispossessed indigenous peoples Reading against the background of contemporary ethnographic literary and cultural theory Hulan maintains that the collective Canadian identity idealized in many works representing the north does not occur naturally but is artificially constructed in terms of characteristics inflected by historically contingent ideas of gender and race such as self sufficiency independence and endurance and that these characteristics are evoked to justify the nationhood of the Canadian state

The Western Landscape in Cormac McCarthy and Wallace Stegner Megan Riley

McGilchrist,2012-06-25 The western American landscape has always had great significance in American thinking requiring an unlikely union between frontier mythology and the reality of a fragile western environment Additionally it has borne the burden of being a gendered space seen by some as the traditional virgin land of the explorers and pioneers subject to masculine desires and by others as a masculine space in which the feminine is neither desired nor appreciated Both Wallace Stegner and Cormac McCarthy focus on this landscape and environment its spiritual narrative symbolic imaginative and ideological force is central to their work In this study McGilchrist shows how their various treatments of these issues relate to the social climates pre and post Vietnam era in which they were written and how despite historical discontinuities both Stegner and McCarthy reveal a similar unease about the effects of the myth of the frontier on American thought and life The gendering of the landscape is revealed as indicative of the attempts to deny the failure of the myth and to force the often numinous western landscape into parameters which will never contain it Stegner s pre Vietnam sensibility allows the natural world to emerge tentatively triumphant from the ruins of frontier mythology whereas McCarthy s conclusions suggest a darker future for the West in particular and America in general However McGilchrist suggests that the conclusion of McCarthy s Border Trilogy upon which her arguments regarding McCarthy are largely based offers a gleam of hope in its final conclusion of acceptance of the feminine

Getting Over the Color Green Scott Slovic,2001 An eclectic anthology of contemporary nature writing from the Southwest including nonfiction fiction field notes and poetry through which artists of diverse backgrounds both celebrate and illuminate the vitality and complexity of southwestern nature and literature

The Shade of the Saguaro / La sombra del saguaro. Essays on the Literary Cultures of the American Southwest / Ensayos sobre las culturas literarias del suroeste norteamericano Gaetano Prampolini,Annamaria Pinazzi,2013 This volume springs from that fruitful project of scientific cooperation between the humanities departments of Universit di Firenze and University of Arizona which was the Forum for the Study of the Literary Cultures of the Southwest 2000 2007 Tri cultural at least Native Hispanic and Anglo American and multi lingual today s Southwest presents a complex coexistence of different cultures the equal of which would be hard to find elsewhere in the United States Of this virtually inexhaustible object of study the essays here collected tackle an ample range of themes While the majority of them are concerned with the literatures of the Southwest still a good third falls into the fields of history art history ethnography sociology or cultural studies They are partitioned in four sections the first three reflecting the chronology of the stratification of the three major

cultures and the fourth highlighting one of the most sensitive topics in and about contemporary Southwest the borderlands la frontera The Changing American Countryside Emery N. Castle, 1995 The literature on rural America to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns As a result the real rural America remains much misunderstood neglected or ignored by scholars and policymakers alike In response Emery Castle offers The Changing American Countryside a volume that will forever change how we look at this important subject Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands These authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact highly diverse complex and interdependent with urban America and the international market place Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life Geomorphology of Desert Environments Anthony J. Parsons, A. D. Abrahams, 2009-03-20 About one third of the Earth's land surface experiences a desert climate and this area supports approximately 15% of the planet's population This percentage continues to grow and with this growth comes the need to acquire and apply an understanding of desert geomorphology Such an understanding is vital in managing scarce and fragile resources and in mitigating natural hazards This authoritative reference book is comprehensive in its coverage of the geomorphology of desert environments and is arranged thematically It begins with an overview of global deserts proceeds through treatments of weathering hillslopes rivers piedmonts lake basins and aeolian surfaces and concludes with a discussion of the role of climatic change Written by a team of international authors all of whom are active in the field the chapters cover the spectrum of desert geomorphology The Word Rides Again J. David Stevens, 2002 In this manner Bret Harte's sentimental stories become gender bending experiments in which women assume male roles and even enjoy lesbian relationships Owen Wister's *The Virginian* is transmuted from a misogynistic diatribe into a complex meditation on the peculiarly American relation of violence to male identity And even Willa Cather's *Death Comes for the Archbishop* rather than the apotheosis of a religious leader becomes a somewhat standard version of the popular frontier story South Dakota Review, 1995 **American Novel Explication, 1991-1995** Catherine Glitsch, 1998 Covers criticism of American novels found in journals and books published between the years 1991 and 1995 **American Literary Scholarship - 1992** American Literary

Scholarship,1994-06 **Regional Geography** Preston Everett James,1929 **West of the Border** Noreen Groover Lape,2000 Lape here examines many little known Western American writers highlighting their diverse backgrounds as well as their views regarding the complexities of the American frontier She discusses a variety of works of interest to scholars in American cultural studies focusing on issues of culture ethnicity stereotypes within Western frontier writing This is a work of narrow scholarship but it does present a surprising cast of characters *Garden and the Gardeners' Chronicle* ,1911
