Desertification Exploding The Myth:

Desertification David S. G. Thomas, Nick Middleton, 1994-05-31 This controversial book argues that the reality of the expanding desert is not so much an objective scientific fact as a political social and observational construct Examines the origin of the desertification myth how it spawned multimillion dollar research initiatives and became a leading environmental issue Uses new research findings to demonstrate that this highly vaunted problem is extremely smaller and less locally significant than previously accepted Includes a wealth of illustrations from global examples **Desertification**, Lenard Milich offers information on desertification land degradation in arid semi arid and dry sub humid areas resulting from various factors including climatic variations and human activities Milich includes photographs of soil erosion **The Untold Story of the World's Leading Environmental Institution** Maria Ivanova, 2021-02-23 The past present and possible future of the agency designed to act as the world's environmental conscience The United Nations Environmental Programme UNEP was founded in 1972 as a nimble fast and flexible entity at the core of the UN system a subsidiary body rather than a specialized agency It was intended to be the world's environmental conscience an anchor institution that established norms and researched policy leaving it to other organizations to carry out its recommendations In this book Maria Ivanova offers a detailed account of UNEP's origin and history Ivanova counters the common criticism that UNEP was deficient by design arguing that UNEP has in fact delivered on much though not all of its mandate *Encyclopedia of Environmental Change* John A Matthews, 2013-12-13 Accessibly written by a team of international authors the Encyclopedia of Environmental Change provides a gateway to the complex facts concepts techniques methodology and philosophy of environmental change This three volume set illustrates and examines topics within this dynamic and rapidly changing interdisciplinary field The encyclopedia includes all of the following aspects of environmental change Diverse evidence of environmental change including climate change and changes on land and in the oceans Underlying natural and anthropogenic causes and mechanisms Wide ranging local regional and global impacts from the polar regions to the tropics Responses of geo ecosystems and human environmental systems in the face of past present and future environmental change Approaches methodologies and techniques used for reconstructing dating monitoring modelling projecting and predicting change Social economic and political dimensions of environmental issues environmental conservation and management and environmental policy Over 4 000 entries explore the following key themes and more Conservation Demographic change Environmental management Environmental policy Environmental security Food security Glaciation Green Revolution Human impact on environment Industrialization Landuse change Military impacts on environment Mining and mining impacts Nuclear energy Pollution Renewable resources Solar energy Sustainability Tourism Trade Water resources Water security Wildlife conservation The comprehensive coverage of terminology includes layers of entries ranging from one line definitions to short essays making this an invaluable companion for any student of physical geography environmental geography or

 OKID11 I welcome the opportunity to prepare a Foreword to the book on Environmental Policy and Law in Africa edited by Kevin R Gray and Beatrice Chaytor It is a pleasure to do that because the book is a contribution to the cause of capacity building for development and implementation of environmental law in Africa a goal towards which I have had an undivided focus over the last two decades There is still some belief in and outside Africa that for developing countries in general and Africa in particular development and implementation of environmental law is not a priority This belief prevails strongly in many quarters of the industrialised countries In fact the view is held either out of blatant ignorance or by some renegade industrialists who fail to appreciate Michael Royston's 1979 thesis that Pollution Prevention Pays 2 That group for obvious reasons must have their correspondent counterparts in Africa to provide hope that industries rejected as derelict in the West or inoperable due to rigorous environmental regulation can find homes to which they can escape and dump their polluting industries *Routledge Encyclopedia of International Political Economy* R. J. Barry Jones, 2002-09-11 This three volume Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in the study of the international political economy *Routledge Encyclopedia of International Political Economy: Entries A-F* R. J. Barry Jones, 2001 This important new work is the first comprehensive reference to the rapidly developing field of international political economy IPE Featuring over 1200 A Z entries the coverage encompasses the full range of issues concepts and institutions associated with IPE in its various forms Comprehensively cross referenced and indexed each entry provides suggestions for further reading along with guides to more specialized sources Selected entries include African Development Bank benign neglect Black Monday casino capitalism debt management efficiency floating exchange rates General Agreement on Tariffs and Trade GATT information society economy Organization of Petroleum Exporting Countries OPEC Microsoft multinational corporations definitions NATO patents rent seeking Schellin Thomas tax havens trusts Value Added Tax VAT zero sum games and many more **Desertification Control Bulletin** ,1995

75 leading international researchers in the field to present the most comprehensive body of research on the physical and social dimensions of drought to date Including an extensive range of case studies covering the most drought prone and most affected countries the contributors examine new technology planning methodologies and mitigation actions from recent drought experiences worldwide Following a discussion of the critical concepts of drought the work is divided into the following additional parts causes and predictability monitoring and early warning techniques impacts and assessment methodologies links between drought and other global issues conclusions and future challenges **Desertification** [,2003 Offers information on desertification provided by the Food and Agriculture Organization FAO of the United Nations Highlights programs and activities related to desertification related documents and international organizations involved in desertification related activities **Annales de géomorphologie** Andreas Aigner,Josef Stini,Hans Mortensen,1996

Social Aspects of Sustainable Dryland Management Daniel Stiles,1995-06-20 With dryland areas accommodating approximately one billion people in over a hundred countries there is obviously a problem of increased stress being placed on the natural resources of these areas which ultimately contributes to overall land degradation Coupled with this many developing countries particularly in Africa are showing a fall in agricultural production per capita with people migrating away from dryland areas such relocation to marginal lands and forests or to already over populated cities further enhances global land degradation With this in mind Social Aspects of Sustainable Dryland Management attempts to address the overall problem of land degradation and provides ways in which dryland productivity and viability can be increased and managed for future years The volume bases its results on case studies and field research projects and encourages a greater involvement of the local population in developing methods of management of their own natural resources This volume therefore embodies a concept of development far beyond conventional methods It aims to show that land management must develop around the priorities needs and objectives of the people concerned and emphasises the need to involve local people in solving the problems of resource degradation so that future research and modern technologies can be developed with their participation Above all it seeks to recognise the value of indigenous knowledge in sustainable development so that such knowledge systems can become the starting point from which to plan management strategies and new technological adaptations
