Design in Puritan American Literature William J. Scheick, 2014-07-15 Puritan American writers faced a dilemma they had an obligation to use language as a celebration of divine artistry but they could not allow their writing to become an iconic graven image of authorial self idolatry In this study William Scheick explores one way in which William Bradford Nathaniel Ward Anne Bradstreet Uriah Oakes Edward Taylor and Jonathan Edwards mediated these conflicting imperatives They did so he argues by creating moments in their works when they and their audience could hesitate and contemplate the central paradox of language its capacity to intimate both concealed authorial pride and latent deific design These ambiguous occasions served Puritan writers as places where the threat of divine wrath and the promise of divine mercy intersected in unresolved tension By the nineteenth century the heritage of this Christlike mingling of temporal connotation and eternal denotation had mutated A peculiar late eighteenth century narrative by Nathan Fiske and a short story by Edward Bellamy both suggest that the binary nature of language exploited by their Puritan ancestors was still a vital authorial concern but neither of these writers affirms the presence of an eternal denotative signification hidden within the conflicting historical contexts of their apparently allegorical language For them appreciation of the mystery of a divine revelation possibly concealed in words yielded to puzzlement over language itself specifically over the inadequacy of language to signify more than its own instability of design This book is a tightly focused study of an important aspect of Puritan American writers use of language by one of the leading scholars in the field of early American literature     Hesitation and Design in Puritan American Literature William J. Scheick, 1992     **Gender and the Writer's Imagination** Mary Suzanne Schriber, 1987-01-01     **Early American Literature Newsletter** , 1993     *American Designs* Jeanne Campbell Reesman, 1991 *American Designs* addresses three major literary critical issues the hermeneutics of the novel genre the intense importance of this genre for American literature and the way James and Faulkner explore the particular functions of the novelistic designs they inherited and transformed     **The Word Made Flesh Made Word** David G. Miller, 1995 Edward Taylor s dilemma as Puritan preacher and poet was to discover a way in human language to express the ineffable Divine This first book length study of Edward Taylor s prose suggests that Taylor s use of language illustrates the very theological truths he struggled with as a minister and a writer Taylor s poetic metaphors have long been noted for their vitality and linguistic absurdity This penetrating study of Taylor s Christographia sermons concludes that Taylor intentionally forces his types and metaphors into failure to illustrate how necessary it is for the incarnate Christ to redeem both the medium and the messenger The author places Taylor in historical theological and stylistic contexts and then looks at how both types and metaphors used by Taylor tend to follow the pattern of establishment failure and redemption By focusing on the typological images of Moses David and the Jewish religious ceremonies for example Taylor shows how such images both point toward Christ and obscure the truth of Christ By using metaphorical images of light plants and living buildings Taylor attempts to

paint a portrait of Christ for his congregation all the while insisting that human language can never illustrate the Divine

**Puritan Poets and Poetics** Peter White,1985 The first comprehensive and integrated critical survey of colonial American poetry this book focuses on the New England Puritans who produced the most notable poets relating them contextually to writers of the Middle Atlantic and Southern colonies and to their European forebears Following a general introduction by the editor the book s three parts present first the social and aesthetic context in which the poets worked second the individual achievements of nine of the most successful poets thin the varied forms the poets used sacred and profane serious and humorous formal and informal

**Encyclopedia of the Environment in American Literature** Geoff Hamilton,Brian Jones,2014-01-10 This encyclopedia introduces readers to American poetry fiction and nonfiction with a focus on the environment broadly defined as humanity s natural surroundings from the discovery of America through the present The work includes biographical and literary entries on material from early explorers and colonists such as Columbus Bartolome de Las Casas and Thomas Harriot Native American creation myths canonical 18th and 19th century works of Jefferson Emerson Thoreau Whitman Hawthorne Twain Dickinson and others to more recent figures such as Jack London Ernest Hemingway Norman Mailer Stanley Cavell Rachel Carson Jon Krakauer and Al Gore It is meant to provide a synoptic appreciation of how the very concept of the environment has changed over the past five centuries offering both a general introduction to the topic and a valuable resource for high school and university courses focused on environmental issues

**Theism in the Discourse of Jonathan Edwards** R. C. De Prosopo,1985 This book proposes that a new semiotic category called theism can more intelligibly classify the discursive pattern that precedes modern humanism in American literature than such standard historicist categories as Puritanism or Calvinism or medievalism and that the writings of Jonathan Edwards exemplify this theist discursive pattern

**Studies in the Literary Imagination** ,1994 **Rituals of Empowerment** Alan J. Silva,1993 **Explorations in Renaissance Culture** ,1999 *Protestantism, Capitalism, and Nature in America* Mark Stoll,1997 Environmentalists have often blamed Protestantism for justifying the human exploitation of nature but the author of this cultural history argues that in America hard boiled industrialists and passionate environmentalists sprang from the same Protestant root Protestant Christianity Calvinism especially both helped industrialists like James J Hill rationalise their utilisation of nature for economic profit and led environmental advocates like John Muir to call for the preservation of unspoiled wilderness Biographical vignettes examine American thinkers industrialists and environmentalists Benjamin Franklin Joseph Smith William Gilpin Leland Stanford Gifford Pinchot Aldo Leopold and others whose lives show the development of ideas and attitudes that have profoundly shaped Americans use of and respect for nature The final chapter looks at several contemporary figures James Watt Annie Dillard and Dave Foreman whose careers exemplify the recent Protestant thought and behaviour and their impact on the environment
