The Design of Discord Elwin Humphreys Powell, 1988-01-01 The Germanization of Early Medieval Christianity James C. Russell, 1996-06-20 While historians of Christianity have generally acknowledged some degree of Germanic influence in the development of early medieval Christianity Russell goes further arguing for a fundamental Germanic reinterpretation of Christianity This first full scale treatment of the subject follows a truly interdisciplinary approach applying to the early medieval period a sociohistorical method similar to that which has already proven fruitful in explicating the history of Early Christianity and Late Antiquity The encounter of the Germanic peoples with Christianity is studied from within the larger context of the encounter of a predominantly world accepting Indo European folk religiosity with predominantly world rejecting religious movements While the first part of the book develops a general model of religious transformation for such encounters the second part applies this model to the Germano Christian scenario Russell shows how a Christian missionary policy of temporary accommodation inadvertently contributed to a reciprocal Germanization of Christianity *Rhetoric and Civility* Harold Barrett, 1991-01-22 This book relates the concept of civility to rhetorical disposition and incivility to indisposition The author discusses classical rhetorical theory and interprets it for use in all interactions exploring origins in infancy of the rhetorical disposition and the rhetorical indisposition He provides four case study chapters of the lives of individuals illustrating unhealthy narcissism and rhetorical failure Jim Jones Joseph McCarthy Paul Morel and Tiberius Gracchus These cases illustrate how unfavorable narcissism can give adverse direction to the rhetorical imperative and lead to problems in relationships Barrett offers a rhetorical corrective The International Handbook of Sociology Stella R Quah, Arnaud Sales, 2000-09-19 The most up to date survey of the range of research in contemporary sociology extremely useful to students teachers and researchers alike Indispensable for collective and personal libraries Immanuel Wallerstein Maison des Sciences de l Homme Paris This unique Handbook provides state of the art reviews of sociology conducted by prominent scholars Drawing on dedicated knowledge and expertise the book constitutes an unrivalled guide to the central theoretical and methodological perspectives in the discipline as a whole The book is organized into six parts o conceptual perspectives o social and cultural differentiation o changing institutions and collective action o demography cities and housing o art and leisure o social problems Each chapter includes a comprehensive review of the literature covering the full range of work from contrasting traditions of thought and approaches No existing work matches this Handbook for scholarly coverage and relevance It is a primary resource for understanding the discipline As such it will appeal to lecturers researchers and advanced graduate and undergraduate students in Sociology *Encyclopedia of Identity* Ronald L. Jackson II, 2010-06-29 The two volumes of this encyclopedia seek to explore myriad ways in which we define ourselves in our daily lives Comprising 300 entries the Encyclopedia of Identity offers readers an opportunity to understand identity as a socially constructed phenomenon a dynamic process both public and private shaped

by past experiences and present circumstances and evolving over time Offering a broad comprehensive overview of the definitions politics manifestations concepts and ideas related to identity the entries include short biographies of major thinkers and leaders as well as discussions of events personalities and concepts The Encyclopedia of Identity is designed for readers to grasp the nature and breadth of identity as a psychological social anthropological and popular idea Key Themes Art Class Developing Identities Gender Sex and Sexuality Identities in Conflict Language and Discourse Living Ethically Media and Popular Culture Nationality Protecting Identity Race Culture and Ethnicity Relating Across Cultures Religion Representations of Identity Theories of Identity *Abstracts on Criminology and Penology*, 1972 Bimonthly Abstracts of journal articles and monographs Covers material from psychiatric literature as well as from criminological sources Entries arranged in classified order Author subject indexes *Justice as Sanctuary* Herman Bianchi, 2010-10-01 While many in the criminal justice system would agree that the present punitive system of crime control is ineffective unjust and malevolent there is little enthusiasm for talk about reforming the system or for a reexamination of its fundamental premises In *Justice as Sanctuary* noted Dutch criminologist Herman Bianchi details a new approach to crime control one that promises to reanimate debate and initiate real change He explores the cultural and religious roots of the current punitive system in search of new perspectives that can help create a more just and effective one In the ancient Hebrew notion of *tsedeka* justice or righteousness Bianchi finds the inspiration for a new model of crime control based on conflict resolution rather than punishment Because so many feel alienated from the criminal justice system he argues for new procedures that will enable people to experience law as supportive of their lives and their social interactions To complement the current punitive system Bianchi proposes a system that provides victims and offenders a chance to resolve their conflicts and offers them the opportunity to reach non punitive systems By incorporating the concept of liability Bianchi's model returns to offenders the responsibility for their acts while providing an active legal role for the victims of crime It adapts structures and models from civil and labor law for conflict resolution of nonviolent crimes and in the case of violent crimes and in the case of violent crimes proposes the creation of special sanctuaries that would protect the public while making it possible to effect true justice Startling in its implications Bianchi's system is not a utopian dream but a carefully considered set of proposals that could be acted upon today *Crime, Modernization, and Development* In-söp Ch'oe, Insub Choi, 1990 **Journal of Evolutionary Psychology**, 1995 *Works and Days*, 1992 *Policing and Crime Control* Eric H.
