Shapiro, 2013 The Physician's Essential MBA Michael I. Stahl. Peter I. Dean, 1999 The Physician's Essential MBA What Every Physician Leader Needs to Know is the essential resource for physicians who are seeking sophisticated business and managerial skills in order to survive in today s health care environment This comprehensive text covers everything from change and strategy to effective data utilization Road Map for the Baldrige Journey Joe Kilbride, 2015-12-21 While the Baldrige Criteria for Performance Excellence are one of the most widely known assessment frameworks in the world interest in the Criteria has ebbed and flowed over the years In part this may be due to the fact that applicants are often on their own when it comes to determining how to use the Criteria and award programs in an efficient and effective manner This difficulty is somewhat by design since the Criteria are non prescriptive The requirements are presented as more than 200 questions written in a generic manner to enable their application by all types of organizations They do not tell leaders what to do to meet the requirements which is both good and bad While it allows organizations to develop processes to respond to the Criteria in ways that meet their unique needs this has created a barrier for some leaders This book provides a detailed road map and systematic process to design and implement a customized operating model for performance excellence based on the Criteria The road map includes regular use of state award programs for feedback to enable mid course correction Though recognition is not its primary purpose following this road map also increases the likelihood of being recognized by these award programs The approach presented here will not guarantee an award but it will help an organization s leaders use the Criteria and award programs more efficiently and effectively as an aid to organizational transformation and improvement It is true organizations are perfectly designed to get the results they are getting The Baldrige framework is an operating model that guides organizations to establish key processes that are proven to yield high reliability. The framework however can be intimidating Kilbride's Road Map clearly explains and provides doable steps to apply the Baldrige Criteria and become more process honoring It is a compilation of the valuable education guidance and support Joe provided us on our journey David Fox President and Pattie Skriba VP Business Excellence Advocate Good Samaritan Hospitalbr2010 Baldrige Award Recipient The Baldrige journey of continuous improvement never ends For such a journey you need a knowledgeable co pilot and Joe Kilbride has helped many organizations examiners judges and others pursuing excellence to navigate that journey His expertise is priceless and the

Road Map makes him your virtual co pilot I hope you will take the first step today excellence awaits Bob Barnett Retired CEO Motorola CGISSbr2002 Baldrige Award Recipient Surviving the challenges of today s global competition requires having a long term plan and a road map to get there Here is the essential companion for a successful journey David Boulay resident Illinois Manufacturing Excellence Center IMEC Sm Designing, Managing and Improving Ope Upton, 1998-06-01
