## **Desire And Belief Introduction To Some Recent Philosophical Debates:**

**Desire and Belief** Arthur E. Falk, 2004 Some call it folk psychology others call it the perennial philosophy According to Arthur Falk author of *Desire and Belief* it is the traditional account of the mind's features that make it unique in nature This work examines the nature of what philosophers call de re mental attitudes paying close attention to the controversies over the nature of these and allied mental states Over the course of the book a story emerges within the traditional account that ultimately appeals to Darwinian principles The book concludes with two chapters on the contemporary project of naturalizing the mind

**A Philosophy of Faith** Finlay Malcolm, Michael Scott, 2022-08-11 Faith occupies an important place in human lives It can be directed towards God friends political systems and sports teams and is said to help people through crises and to motivate people to achieve life goals But what is faith Philosophers and theologians have for centuries been concerned with questions about the rationality of faith but more recently have focussed on what kind of psychological attitude faith is The authors of this book bring together for the first time the different elements of this recent debate staking out the different positions and arguments and defending a novel true grit theory of faith from which the rationality and language of faith are addressed from a fresh perspective The book engages with a range of questions about the nature of faith including Does faith require belief Is faith motivational What is the relationship between faith trust and hope Do expressions of faith aim at the truth And in what sense is faith resilient The authors defend a distinctive conception of faith involving resistance to psychological practical and epistemic challenges from which a novel account of the psychology and epistemology of faith is developed The treatment of the topic draws extensively on the philosophy of mind language and religion and provides a map of this exciting field of study for newcomers to the philosophy of faith A *Philosophy of Faith* will appeal to researchers and advanced students in philosophy of religion philosophy of mind philosophy of language and epistemology who are interested in the topic of faith

*Hope across cultures* Andreas M. Krafft, Tharina Guse, Alena Slezackova, 2023-05-24 This open access book presents an integrative and transdisciplinary conceptualization of hope and brings together cross cultural studies based on quantitative data from around the globe It incorporates state of the art theories of hope from psychology philosophy and theology and presents a novel approach to the study of hope in different life situations The volume analyses empirical data from the Hope Barometer international research network collected from more than 40 000 participants between 2017 and 2021 The authors use this broad database to investigate the nature and value of hope for well being and flourishing at individual and societal levels in various regions and different cultural religious and social backgrounds The chapters study the cultural characteristics of different facets and elements of hope and furthermore explore its common qualities to

elucidate the universal nature of hope across cultures Comprehensive transdisciplinary and cross cultural in scope this volume is of interest to a global readership across the social and behavioural sciences The Ends of Philosophy of Religion T. Knepper,2013-08-20 Knepper criticizes existing efforts in the philosophy of religion for being out of step with and therefore useless to the academic study of religion then forwards a new program for philosophy of religion that is in step with and therefore useful to the academic study of religion

**Free Will and Action Explanation** Scott Sehon,2016-04-29 Do we have free will and moral responsibility Is free will compatible with determinism Scott Sehon argues that we can make progress on these questions by focusing on an underlying issue the nature of action explanation When a person acts or does something on purpose we explain the behavior by citing the agent s reasons The dominant view in philosophy of mind has been to construe such explanations as a species of causal explanation Part I of the book proposes and defends a non causal account of action and agency according to which reason explanation of human behavior is irreducibly teleological rather than causal Part II applies the teleological account of action to free will and responsibility arguing that the free actions the ones for which we are directly responsible are the goal directed actions the actions that are teleologically explicable in terms of our reasons It is then argued that this non causal account of action undermines the appeal of incompatibilist arguments arguments attempting to show that free will is not compatible with determinism Beyond this Sehon argues that the non causal compatibilist account works well in practice it is in accord with our clear intuitions about cases and it both explains and provides guidance in the cases where our intuitions are murkier

*Philosophy of Religion* William Lane Craig,2002 *Philosophy of Religion* is a combined anthology and guide intended for use as a textbook in courses on Philosophy of Religion It aims to bring to the student the very best of cutting edge work on important topics in the field Presenting a sympathetic view of the topics it treats *Philosophy of Religion* provides an ideal resource for studying the central questions raised by religious belief

**Psychological Knowledge** Martin Kusch,2005-10-05 Psychologists and philosophers have assumed that psychological knowledge is knowledge about and held by the individual mind Psychological Knowledge challenges these views It argues that bodies of psychological knowledge are social institutions like money or the monarchy and that mental states are social artefacts like coins or crowns Martin Kusch takes on arguments of alternative proposals shows what is wrong with them and demonstrates how his own social philosophical approach constitutes an advance We see that exists a substantial natural amount of philosophical theorising a body of work that tries to determine the nature and structure of folk psychology An introduction to the workings of constructivism Psychological Knowledge is an insightful introduction to the history of psychology and the recent philosophy of mind

**The Earlham College Bulletin** Earlham College,1929 *The Philosophy of Psychology* George Botterill,Peter Carruthers,1999-08-19 What is the relationship between common sense or folk psychology and contemporary scientific psychology Are they in conflict with one another Or do they perform quite different though perhaps complementary roles George Botterill and Peter Carruthers discuss these questions defending a

robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science Their focus throughout the book is on the ways in which cognitive science presents a challenge to our common sense self image arguing that our native conception of the mind will be enriched but not overturned by science The Philosophy of Psychology is designed as a textbook for upper level undergraduate and beginning graduate students in philosophy and cognitive science but as a text that not only surveys but advances the debates on the topics discussed it will also be of interest to researchers working in these areas      **Undergraduate Study** Northwestern University (Evanston, Ill.),1901
