management shifting the focus from mere scheduling to creating a life aligned with your core values and aspirations. The book argues that traditional time management often fails because it doesn't address the root cause: a disconnect between our actions and our core beliefs. One intriguing fact is that understanding and prioritizing your values can lead to a more fulfilling and purpose-driven existence. The book is structured in three parts: guiding you through self-discovery to uncover your values, setting achievable goals, and integrating work commitments into your life. It provides a step-by-step guide to implementing Aligned Planning, complemented by case studies. This approach is unique because it combines personal values clarification with strategic goal setting and practical scheduling techniques, emphasizing effectiveness over mere efficiency, helping you to do the right things rather than simply doing things right.

Did you know that people are more likely to achieve their goals when they break them into smaller, manageable tasks? Or that regular reviews and adjustments can significantly improve alignment with long-term objectives? The book guides readers through creating a personalized momentum-building calendar. Chapters explore goal setting methodologies like SMART goals and OKRs, habit formation techniques, and progress tracking strategies. By integrating these elements, the book aims to create a cohesive planning system that aligns with individual needs and aspirations. What sets this book apart is its focus on building momentum, moving beyond simple scheduling to create a dynamic system that adapts to evolving needs and keeps users motivated. The *Momentum Planner* draws upon research in behavioral psychology and management science to support its arguments.
