Public Relations Campaigns Regina M. Luttrell, Luke W. Capizzo, 2025-04-15 *Public Relations Campaigns* An Integrated Approach introduces students to the process of creating public relations campaigns using a hands on approach that emphasizes the tools students will need when working in the industry. The Third Edition emphasizes the importance of diversity initiatives and highlights an integrated approach that encompasses aspects of social media marketing advertising and client management. , Chatgpt and Other Generative AI Tools Jochen Kuhn, Stefan Küchemann, Knut Neumann, Martina Rau, 2025-02-17 In the past ten years applications of generative artificial intelligence GAI have found rapidly growing use in medicine science and daily life. Large language models LLMs opened up new avenues in particular for education. LLMs have been used to create interactive educational content for students stimulate their curiosity generate code explanations and develop assessment questions. Additionally LLMs have been applied for language practice anxiety alleviation and feedback provision. In higher education LLMs have shown potential for assisting in medical exam preparation and clinical decision making. In school education LLMs can help teachers with automated evaluation of student responses and respective adaptive feedback. More recently LLM based applications such as chatGPT have been used to generate teaching materials or assessment tasks across different subjects. The fields understanding of the effects of the use of LLM based applications in classroom teaching however is still in its infancy. GAI tools may help solving a range of tasks in education in particular with respect to teachers and students and teachers efforts to generate content. However it is critical that teachers and students do not overly rely on GAI generated solutions but instead critically assess each solution. Students should furthermore not use GAI tools to avoid investing relevant mental effort to create mental models or more broadly build up competencies. **Social**

Technologies for Inclusive Development: Multilevel Policy and Practices Kleinsy Bonilla, Susana Arrechea, Luis Guillermo Velásquez Pérez, Efraín Bámaca-López, 2025-05-15

Social technologies fostering inclusion represent a contemporary research paradigm that has resurfaced. Broader discussions aim to expand the scope of science technology and innovation beyond purely economic considerations into the social domain. Hern n Thomas suggests that innovative solutions encompass a broad spectrum of approaches for conceiving, constructing, implementing, and overseeing technological interventions tailored to address pressing social and environmental challenges. These solutions strive to stimulate the emergence of socially inclusive and sustainable economic dynamics in various areas including nutrition, housing, energy, clean water access, transportation, and communication. This multifaceted approach reflects a commitment to harnessing technology's potential for the betterment of society at large.

This Research Topic focuses on showcasing experiences, strategies, and policies in science technology and innovation primarily in the context of Latin America. Such experiences, strategies, and policies aim to reduce social disparities and stimulate development. This article collection welcomes multifaceted approaches including comparative analysis, policy evaluations, community case studies, and more. Additionally, it engages with theoretical discussions on the influence of scientific and technological paradigms on public management, examining how these paradigms shape policy design, implementation, and technology integration. Furthermore, this Research Topic aims to explore recent technological advancements, particularly in the realms of digital transformation and data-driven decision making, as tools to forge new avenues for social inclusivity. By delving into these innovations, the collection aims to facilitate knowledge on innovative solutions, improve governance practices, and foster greater citizen involvement.

Overall, this research initiative aims to contribute to the burgeoning literature on social technologies for social inclusion. It will critically assess the strengths and limitations of multilevel interventions, offering paradigmatic case studies and pinpointing unexplored opportunities within this field, thereby advancing our understanding and enhancing discourse in this critical area of study.

The scope of this Research Topic revolves around the burgeoning field of social technologies and their nascent integration with public management and community engagement, specifically focusing on Latin America. We welcome a diverse range of manuscript types including original research articles, reviews, case studies, policy analyses, and theoretical perspectives. We aim to assemble a comprehensive collection of insights and experiences that shed light on the evolving landscape of social technology in Latin America and its implications for addressing contemporary global challenges. We invite contributions that delve into this dynamic intersection: social technologies and public management in Latin America, exploring themes such as innovative approaches to social technology adoption, the impact of digital transformation on local communities, practical strategies for fostering inclusive development, and the role of scientific diasporas in advancing these initiatives.
