Freelance Blog Writing Ken Bradford, 2014. Delivering quality web content is an indispensable part of online marketing. Content marketing is the foundation of brand building, whether you are a freelance writer or a large corporation. Effective content marketing is much more than broadcasting information. It's just a way of getting the conversation started. The goal of web content writers must be to address an audience directly and personally. We must be passionate about helping people acquire knowledge, solve problems and achieve their goals. For our content to have any impact, it must deliver unique value to our readers. *Writing Better Web Content* helps you analyze the quality in web content. It helps you establish your voice in writing, which is a critical part of creating and sustaining a brand or service. It explores ideas to help you make better connections with your audience, better optimize your articles for search engines and better promote your hard work in social media networks. There are certainly a lot of books written about writing better web content. The problem is that a lot of these books just give instructions and don't really go into any detail about how to apply those instructions to get better results. The authors of *Writing Better Web Content* have not only provided ideas and techniques to help you become a better freelance writer but they have made suggestions as to how to apply these principles to make your passion for writing more enjoyable and more profitable.
