Novelist MBA Monica Leonelle, 2024-10-20 In December 2009 Monica Leonelle hit two major milestones in a single month She graduated with an MBA from Chicago Booth School of Business and she independently published her first book about social media for business

The latter completely changed the course of her life and gave her a new direction that made no sense given the former. Fifteen years later she's reflecting back on her greatest lessons learned in building a publishing career. This book commemorates the failures and the feelings as well as the successes and the strategies that got her to this point. This book also reflects on and pulls lessons from her two flagship series for authors: *The Productive Novelist* and *Book Sales Supercharged*. Part self-help, part how-to, part memoir, *Novelist MBA* celebrates fifteen years of progress in one author's career alongside changes in a rapidly evolving industry while also acknowledging the future and so much more to come.

Discovering Public Relations Karen Freberg, 2024-02-16 *Discovering Public Relations* introduces students to the field of PR in a practical, applied, and hands-on way that prepares them for the modern workplace. Author Karen Freberg highlights modern and contemporary PR practices emphasizing social media, digital communication, and creative innovation. Understanding that creativity alone can't create success, Freberg shows students how to choose and implement evidence-based practices to guide their strategic campaigns. The Second Edition transforms students into successful PR professionals by giving them the tools to think creatively, innovate effectively, and deploy research-backed tactics for successful campaigns.

Artificial Intelligence and Human Existence Akanksha Srivastava, A.V. Senthil Kumar, Disha Maheshwari, Samrat Ray, 2025-12-22 Artificial Intelligence (AI) has become part and parcel of many aspects of our lives, impacting how we approach tasks and understand the world around us. This book recognizes the impact that Artificial Intelligence (AI) has on education, computer science, and society. Taking an interdisciplinary approach, it looks at the positive and negative implications and delivers a comprehensive understanding of how the integration of AI is shaping the future of human existence. This book covers twelve topics that reveal the links between AI and humans. The topics range from the transformational role of technology in education to the ethical considerations surrounding AI's application, plus many more. Specifically, it investigates how AI algorithms are pushing the boundaries of inventions in computer science and driving innovations in human-computer interaction and software development through themes such as *Computer Science and Technological Frontiers*. It also reflects on the societal impact of AI and offers tools to navigate the changing landscape of technology and humanity. With discussions on the latest advancements in AI and their implications for future innovations, readers of this book will learn of the ethical challenges posed by AI through in-depth analysis, including coverage of equity, privacy, and algorithmic bias. *Artificial Intelligence and Human Existence: Insights on Education, Technology, and Society* is for researchers, educators, policymakers in the fields of human factors, human-computer interaction, and computer science, plus anyone interested in the links between AI and human society.
