Artificial Intelligence and Human Existence Akanksha Srivastava, A.V. Senthil Kumar, Disha Maheshwari, Samrat Ray, 2025-12-22

Artificial Intelligence (AI) has become part and parcel of many aspects of our lives, impacting how we approach tasks and understand the world around us. This book recognizes the impact that Artificial Intelligence (AI) has on education, computer science, and society. Taking an interdisciplinary approach, it looks at the positive and negative implications and delivers a comprehensive understanding of how the integration of AI is shaping the future of human existence. This book covers twelve topics that reveal the links between AI and humans. The topics range from the transformational role of technology in education to the ethical considerations surrounding AI's application, plus many more. Specifically, it investigates how AI algorithms are pushing the boundaries of inventions in computer science and driving innovations in human-computer interaction and software development through themes such as Computer Science and Technological Frontiers. It also reflects on the societal impact of AI and offers tools to navigate the changing landscape of technology and humanity. With discussions on the latest advancements in AI and their implications for future innovations, readers of this book will learn of the ethical challenges posed by AI through in-depth analysis, including coverage of equity, privacy, and algorithmic bias.

Artificial Intelligence and Human Existence: Insights on Education, Technology, and Society is for researchers, educators, policymakers in the fields of human factors, human-computer interaction, and computer science, plus anyone interested in the links between AI and human society.

Strategic Media Planning and Buying Basant Rathore, 2024-05-31

This book explores media planning, media buying, and the advertising landscape in India. It provides a comprehensive look into the essential aspects of media strategies for brands and businesses to effectively reach their intended audiences and consumers. The book cuts through and demystifies complex media jargon and theories to provide an understanding of the key concepts for developing a media mix that will yield results for businesses. It discusses media research and theories and offers marketers suggestions on how to use both traditional and digital media effectively to build brands. The first section of the book introduces the basics of media theory, including data collection methodologies and their application. The second section covers the fundamentals of planning a media strategy and advertising plans and campaigns based on the goals of the company or brand. The third section discusses the practical nuances of planning, like media mix selections, media vehicle selections, and media buying across all types of media. This book will be of interest to students and researchers of business and management studies, media and communication studies, as well as to marketing and media professionals working in different sectors of business.
