AI Applications and Strategies in Teacher Education Keeley, Krista LaRue, 2024-10-10 Artificial intelligence is revolutionizing teacher education by offering innovative applications and strategies to enhance the learning experience for educators and students. From personalized learning platforms to intelligent tutoring systems, AI can transform traditional teaching methods. These intelligent technologies streamline administrative tasks while supporting the development of essential skills like critical thinking and faculty collaboration. As teacher education programs continue to integrate AI tools, future educators learn to harness data-driven insights and create engaging, effective learning environments. Exploring these applications further emphasizes the potential of AI to positively reshape the teacher education sphere. **AI Applications and Strategies in Teacher Education** explores the landscape of AI in training and supporting educators. The book serves educators seeking insights into effective utilization of AI in a professional setting and the integration of AI in teaching practices. This book covers topics such as educational technologies, higher education, and diversity and equity, and is a useful resource for academicians, teachers, professors, education professionals, data scientists, computer engineers, and researchers.

Artificial Intelligence for Supporting Human Cognition and Exploratory Learning in the Digital Age Pedro Isaias, Demetrios G. Sampson, Dirk Ifenthaler, 2024-08-08 The Cognition and Exploratory Learning in the Digital Age CELDA conference focuses on discussing and addressing the challenges pertaining to the evolution of the learning process, the role of pedagogical approaches, and the progress of technological innovation in the context of the digital age. In each edition, CELDA gathers researchers and practitioners in an effort to cover both technological and pedagogical issues in ground-breaking studies. Some of CELDA's main topics include assessment of exploratory learning approaches and technologies, educational psychology, learning paradigms in academia and the corporate sector, student-centered learning, and lifelong learning. The CELDA 2023 conference selected and published a selection of papers that focus on the use of Artificial Intelligence and Learning Analytics in the educational context.

Creating Culturally Affirming and Meaningful Assignments Christine Harrington, 2024-02-02 *Creating Culturally Affirming and Meaningful Assignments* offers principles, strategies, and examples to aid in the development of inclusive college coursework in which all students feel seen and valued. This resource prepares instructors to proactively consider ways to honor and engage with students' varied identities and lived experiences through assignments. Chapters cover the course design process, methods on getting to know your students, assignment options beyond the exam, and more. Reflection questions at the end of each chapter serve as a springboard for faculty and leadership conversations on equitable and inclusive teaching practices, while the appendix features 20 example assignments sourced from various higher education disciplines. An accessible, practical read, this guidebook is for any higher education instructor who wants to reimagine their assignments to center and celebrate students' varied cultural backgrounds and experiences.
