Transformation of Youth Education With AI Sherridean Abddeen, 2025-10-03 Transformation of Youth Education

With AI focuses on the urgent need to reshape the future for the younger generation particularly those who have been left behind by a rapidly changing world With so many children and young adults currently stuck in cycles of poverty violence and disillusionment AI presents a groundbreaking opportunity to intervene in a positive and transformative way The focus of this book is on how AI can serve as both a mentor and collaborator for the next generation offering emotional support innovative learning methods and opportunities for creative expression By integrating AI into education we can inspire a renewed sense of purpose emotional intelligence and critical thinking in young minds This book lays out the path forward from the donation of free robots for students to work with to the idea of using AI to empower and uplift youth especially those in special education allowing them to thrive not only in school but also in life It is about breaking the cycle of despair and giving young people the tools to succeed creating a future where AI works alongside humans providing emotional guidance educational support and creative collaboration Together we can set the foundation for a more hopeful balanced and innovative world
