**Transformational Leadership on Employee-Wellbeing in Remote Work Environments** Judith Schmitt, 2023-07-20  
Seminar paper from the year 2021 in the subject Leadership and Human Resources Employee Motivation grade 1 0  
University of Economics Prague Faculty of Business Administration course Management for doctoral students language  
English abstract This paper analyzes the impact of transformational leadership on employee well being in remote work  
environments As several studies suggest there is a positive relationship between transformational leadership and employee  
well being but it is rather complex as it is influenced by specific mediating and moderating factors Since the ongoing COVID  
19 crisis forced many teams into remote working conditions also leadership was predominantly performed virtually This leads  
to adapted requirements for the promotion of employee well being This paper seeks to identify those adjustments Thus a  
conceptual model was constructed to illustrate the relationship of transformational leadership and employee well being  
which was then applied to remote work environments to propose relevant adaptations
