included within this book I ll show you exactly how it works so that you too will be able to make tons of money online Why reveal my methods now Well I m semi retired and I ve made enough money so that my kids do not have to work one more day in their lives if they so desire I ve had my blessings and now I want to help others succeed as well this is my way to give back Now look 99% of the folks who try to make it on the Internet follow the same rout the same set of activities They all move in one big herd Listen In the highly competitive internet business arena when you do the same things as anyone else you don t stand a chance to succeed you are doomed In order to make money online you must go off the beaten path you need to do something different you need a competitive edge and that is where the strategy presented in this section bonus comes into play This guide will give you that unfair advantage to boost your sales pile up profits and leave your competitors in the dust The strategy I show you in this guide is the easiest fastest most effective way to make money online fast While you are reading this hundreds of people on the Internet are making money like crazy Why not you It doesn t require brains or education anyone can do it As a matter of fact I know of a high school dropout that is making tons of money with this strategy All you have to do is follow my easy to understand step by step instructions Once you complete the 4 easy to grasp steps you can just sit back and see the money keeps pouring into your bank account day in day out for years to come *Affiliate Marketing For Beginners* Tim Murphy, 2020-12-29 If you were to ask a random user of the Internet what he or she thought Affiliate Marketing was he or she would likely claim that it was a way of making money online as an intermediary Here people make a commission from a sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online However as much as there is a lot of truth there Affiliate Marketing does not only have to take place online For example affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client It is the same concept This kind of marketing happens a lot in the real world but people do not trace or coordinate it as much as is the case with online marketing Business owners can ask their customers how they came to know about them in an effort to learn about their client base but they cannot get as much information as they would be using online tracking The growing online market has made this type of marketing more popular and profitable It has also made it easier to grow and expand whatever type of business an individual is in with the help of numerous professional marketers who will not necessarily appear on their payroll Therefore while its history started long before the invention of the Internet the Internet has transformed it and made it widely available to the masses You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in the marketing world You will then learn about the importance of choosing the right niche and how to find one that will provide you with a sustainable passive income stream for years to come From there you will learn the key steps to creating a website that will attract the right type of users as well as the importance of SEO and how to ensure that your new website shows up in as many different sets of search results as possible Finally you will learn just what it takes to create the type of quality content that ensures people keeping back for more month

after month and year after year Every effort was made to ensure it is full of as much useful information as possible please enjoy
