From strengthening app privacy settings to helping kids think critically about AI-generated responses, AI for Families offers clear explanations, historical context, and actionable solutions that put families in control of decisions based on their individual values, beliefs, and needs. Whether navigating a teenager grappling with AI essay support and academic integrity, a middle schooler experimenting with homework help, or families advocating for thoughtful school policies, AI for Families is a roadmap for working through all of these decisions together. Most importantly, AI for Families is about embracing the deeply human traits of curiosity, creativity, empathy, and connection that will serve children well into the future. This might just be the moment where families get to come together, celebrate our collective humanity, and take ownership of the technology that can guide us toward greater discoveries and a better world. We just need to start talking and claiming this future as our own.
