implications of the digital nomad lifestyle How to sell your digital nomad experience to potential employers or customers Insights from some of the world's most successful digital nomads The relationship between the work we do and where we do it has changed With productivity moving to the cloud for nearly every industry the days where work is a place are over We believe that what you do no longer depends on where you do it so you should do it wherever you are most productive creative and happy We will help you create a life that you don't need a vacation from Konrad Waliszewski is a modern day Marco Polo Forbes [A City of Placelessness](#) Haoyu Wang (S.M.), 2020 Placelessness describes a state of people and activities that are not confined to fixed places By creating a placeless ground for work and social activities digital connectivity redefines work live habits contributing to a growing population of digital nomads people who utilize remote work and personal mobility to avoid restrictions of fixed places in their living Through activities of digital nomads this thesis explores the potentials of placelessness in shaping an alternative urban future As a mobile workforce with increasing powers in technology digital nomads gain political supports from Estonia where their visits have been transforming the capital city of Tallinn into a digital nomad hub On the other hand their spatial implications and social segregations from local people have drawn little attention in Tallinn's urban developments To envision Tallinn's urban future under placelessness the thesis takes digital nomads as a stimulus to architecture and urbanism that integrates placelessness into local identities It proposes design interventions on a former industrial site that accommodate an alternative urban life informed by digital nomads while encouraging placeless people to take an active part in the city's post industrial transitions The thesis demonstrates new spatial forms and typologies across scales that seek to inspire future urban developments in Tallinn and other cities populated with placeless people On the other hand while we witness placelessness through the work from home scenarios under the crisis of COVID 19 this thesis encourages us to look beyond the current state of emergency and reimagine placelessness in a future urban life where we reclaim our access to the public ground and personal mobility
