Why You Should Try Virtual Team Building Ideas Guide For Teachers

Panconesi, Gianni, Guida, Maria

Why You Should Try Virtual Team Building Ideas Guide For Teachers:

Handbook of Research on Teaching With Virtual Environments and AI Panconesi, Gianni, Guida, Maria, 2021-02-19

The increasingly pervasive use of digital technology has catapulted society into an interconnected world where the natural boundaries between humankind and machine virtual and real individual and community have become less perceptible As individuals interact with different digital technologies they must build a digital intelligence which must be further cultivated as it is a key competency for the future of school and work Digital intelligence includes understanding the mutual strengths between people and technology as well as developing an awareness in the use of digital tools in order to avoid common threats such as cyberbullying addiction to video games techno stress and more As adolescents continue to engage with virtual reality and 3D virtual worlds where the online and offline overlap and coincide it is important to build this intelligence as well as utilize these technologies to promote successful learning The Handbook of Research on Teaching With Virtual Environments and AI explores the new personalized educational opportunities that are available with digital technology and virtual environments that can be used within education This book focuses on the use of these tools and how to navigate the use of new technologies such as AI and virtual environments for educational practices While highlighting topics such as virtual worlds game based learning intelligent tutoring augmented reality and more this book is ideal for teachers administrators technologists educational software developers IT specialists practitioners researchers academicians and students interested in how virtual environments and AI are being implemented in teaching practices

Work-Integrated Learning Case Studies in Teacher Education Matthew Winslade, Tony Loughland, Michelle J. Eady, 2023-01-01 This book focuses on the emerging area of partner driven work integrated learning inclusive of university or industry stakeholder development and the integration of these two major stakeholders It explores the significant interrelationship between university and school needs in this area of research It uses a cross institutional approach and focuses on local communities that educational providers interact with to highlight and discuss the issues identified in various case studies By doing so this book aims to create a community of practice that explores work integrated learning from an integrated stakeholder perspective and develops a working model to extend existing understanding in this area through integrating the ideas explored in the various chapters
