YouTube Jean Burgess, Joshua Green, 2018-08-28 Since launching as a website for everyday video sharing in 2005

YouTube has become one of the world's most powerful digital media platforms. Originally published in 2009 when YouTube was only four years old, this book was the first to systematically investigate its cultural impacts and politics, highlighting the productive tensions between its amateur community rhetoric and its commercial media logics. Since then, YouTube has grown as a platform and matured as a company. Its business model is built on coordinating the interests of and extracting value from its content creators, audiences, advertisers, and media partners in a commercial setting where YouTube now competes with other powerful social media and streaming television platforms. Meanwhile, YouTube's diverse communities of content creators, who developed the platform's most distinctive cultural forms and genres, have strong ideas and interests of their own. While preserving the original edition's forensic analysis of YouTube's early popular culture and using this fully revised and updated edition to weave fresh examples, updated theoretical perspectives, and comparative historical insights throughout each of its six chapters, Burgess and Green show how, over its more than a decade of existence, YouTube's dual logics of commerciality and community have persisted, generating new genres of popular culture, new professional identities, and business models for the media industries, and giving rise to ongoing platform governance challenges. The book is essential reading for anyone interested in the contemporary and future implications of digital media platforms and will be particularly valuable for students and scholars in media communication and cultural studies.

The Complete Guide to YouTube Automation Zeke Sanders, 2024-10-08 This eBook is designed to be your guide to the fascinating world of automating your YouTube channel. Whether you're a seasoned content creator or a newcomer curious about what automation can do for you, this eBook will take you step by step through the process. The explosion of YouTube as a content platform has opened up enormous opportunities for content creators, entrepreneurs, and hobbyists alike. But as many YouTubers will tell you, the workload can be staggering. Consistently producing videos, engaging with the audience, optimizing content, and managing monetization can feel overwhelming. Enter YouTube automation: the ultimate toolset to help you work smarter, not harder. Automation in YouTube is all about optimizing your workflow so that you can reduce the time spent on repetitive tasks. It enables you to focus more on the creative and strategic aspects while delegating time-consuming work to automation tools. Imagine having a YouTube channel that virtually runs itself. Well, it's not just a dream; many creators have successfully automated large portions of their process and significantly grown their channels as a result. In this eBook, we're going to cover everything you need to know, from the basics of automation to more advanced strategies. We'll start by helping you understand the YouTube algorithm and how it influences video discovery. Then we'll guide you through niche selection, content creation tools, scriptwriting automation, and much more. By the end, you'll be ready to create a highly optimized YouTube channel that can run on autopilot, allowing you to focus on growing your presence, engaging with your audience, or even launching multiple channels.

Digital Intermediation Jonathon Hutchinson, 2023-05-31 Digital Intermediation offers a new framework for understanding content creation and distribution across automated media platforms, a new mediatisation

process This book draws on empirical and theoretical research to carefully identify and describe a number of unseen digital infrastructures that contribute to a predictive media production process through technologies institutions and automation Field data is drawn from several international sites including Los Angeles San Francisco Portland London Amsterdam Munich Berlin Hamburg Sydney and Cartagena By highlighting an increasingly automated content production and distribution process this book responds to a number of regulatory debates on the societal impact of social media platforms It highlights emerging areas of key importance that shape the production and distribution of social media content including micro platformisation and digital first personalities This book explains how technologies institutions and automation are used within agencies to increase exposure for the talent they manage while providing inside access to the processes and requirements of producers who create content for platform algorithms Finally it outlines user agency as a strategy for those who seek diversity in the information they access on automated social media content distribution platforms The findings in this book provide key recommendations for policymakers working within digital media platforms and will be invaluable reading for students and academics interested in automated media environments
