Microsoft Copilot Pro: Step by Step Lisa Crosbie, 2024-12-20 Copilot Pro enables you to be more creative and productive, but using generative AI requires a whole new way of thinking. Most users try once or twice, get poor results, and give up. This book teaches them what they don't know and helps them get started with the right skills. Copilot Pro adds generative AI experiences into the most used Microsoft applications: Outlook, Word, PowerPoint, Excel, and OneNote, enabling users to be

more productive and creative by generating first drafts editing and improving their work easily understanding and finding pieces of information in large documents and gaining new insights It also allows users to generate text and images in a browser and via a mobile app using the latest AI models This is a completely new way of thinking and working like having your own personal enthusiastic intern working side by side with you every day to take on the mundane and time consuming tasks freeing you up for more interesting and creative work Generative AI has been everywhere in the media with a huge hype cycle but most everyday workers don't understand how it can be applied to their day to day work in a practical and transformative way This will follow the Step by Step series format taking the user through a series of steps they can follow to learn practical skills and understand what's possible The nature of generative AI is that the results vary every time so the book will provide several different examples of each skill to illustrate the variances and possibilities and help the reader find examples that are most relevant to them to build their understanding and knowledge Copilot Pro is designed for the consumer or home user and was only announced and made available in January 2024 The uptake of generative AI is more rapid than anything we have seen with any other technology with the free version of Copilot already having had 5 billion images created and 5 billion chats conducted as at the end of January 2024 both doubling quarter over quarter There is very little in Microsoft learning resources available yet on Copilot and there is a huge demand for learning in this space People don't know what they don't know and need help with the new way of thinking required to use this technology in practical and effective everyday ways The author Lisa Crosbie has built a community of learners through her YouTube channel where she is known for her ability to explain technology in a way that makes sense to non technical users

Falling Long-Term Growth Prospects M. Ayhan Kose, Franziska Ohnsorge, 2024-02-29 A structural growth slowdown is under way across the world at current trends the global rate of potential growth is expected to fall to a three decade low over the remainder of the 2020s Nearly all the forces that have powered growth and prosperity since the early 1990s have weakened In addition a series of shocks has affected the global economy over the past three years A persistent and broad based decline in long term growth prospects imperils the ability of emerging market and developing economies to combat poverty tackle climate change and meet other key development objectives The challenges presented by this potential inability call for an ambitious policy response at the national and global levels This book presents the first detailed analysis of the growth slowdown and a rich menu of policy options to deliver better growth outcomes This book presents a sobering analysis of the secular growth slowdown based on the most comprehensive database of potential growth estimates available to date With nearly all the forces that have driven growth and prosperity in recent decades now weakened the book argues that a prolonged period of weakness is under way with serious implications for emerging market and developing economies The authors call for bold policy actions at both the national and global levels to lift growth prospects The book is essential reading for policy makers economists and anyone concerned about the future of the global economy Beatrice Weder di Mauro Professor of International

Economics Geneva Graduate Institute and President of the Centre for Economic Policy Research CEPR Economic policy making is becoming increasingly complicated in the 2020s In addition to tackling traditional trade offs in aggregate demand management and improving efficiency on the supply side policy makers need to address new priorities and challenges from addressing climate change and its impacts to improving income distribution all in the context of lower growth rates waning productivity growth and flattening of the globalization process that has brought unprecedented prosperity across the globe and lifted more than a billion people out of poverty In *Falling Long Term Growth Prospects* the authors do a phenomenal job of assessing these trends at the global and regional levels identifying and unpacking salient twenty first century policy challenges and providing thoughtful and evidence based policy prescriptions for leaders in advanced emerging market and developing economies Importantly the book underscores that these challenges tend to be global and hence global cooperation at all levels is necessary to achieve optimal results Alas we seem to be going in the opposite direction this book offers a road map to put us back on the path to creating a more integrated prosperous and equitable global community Michael G Plummer Director SAIS Europe and ENI Professor of International Economics The Johns Hopkins University
