Beginning English for the Levant Ernest Bradlee Watson, 1920 **Diversity and Inclusion in Italy** Simone Pulcher, Stefano Basaglia, Simona Cuomo, Zenia Simonella, 2025-05-05 History, geography, culture and the legal framework influence the dynamics of inclusion and exclusion in and around organisations. Yet most academics and practitioners still approach themes of diversity in organisations relying on standardised discourses and practices often transferred uncritically from the Anglo-Saxon context. Adopting a contextual approach that takes into account the specificities of the Italian context, this book explores a wide array of themes related to diversity and inclusion in organisations and society. Focusing on the Italian context, the book offers new insights into themes already well established in the diversity debate such as gender, age and disability. It also provides an opportunity to reflect on categories, organisational forms and stakeholders rarely associated with diversity such as social class, family businesses and trade unions, but also to consider the role of technology and the arts as tools for both inclusion and exclusion. The contributions draw on different disciplines and perspectives and provide insights relevant not only with respect to Italy but also to other national and international contexts. This volume is aimed at both researchers and practitioners who wish to develop a more nuanced and mature understanding of diversity in organisations and society.

Flexible Lives Stefanie Reissner, Michal Izak, 2025-08-07 This geographically and methodologically diverse volume shines the spotlight on a variety of flexible working practices beyond the predominantly Western perspective and zooms in on the gendered aspects of flexible working. The increasing use of flexible work arrangements has decoupled work from time and space, making the world of work and home increasingly fluid and

challenging to manage The Covid 19 pandemic in particular has been a catalyst for questioning accepted norms of where when and how work takes place This book seeks to explore the impact which this reshaping of traditional modes of working has had on workplace interactions and relationships as well as on managing the boundaries between familial and working lives In this way this collection contributes to a wider dialogue concerning the flexibility challenges encountered by white collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in *Culture and Organization* and are accompanied by an updated Introduction and a new Epilogue
