Using AI Chatbots to Enhance Planning and Instruction (Quick Reference Guide) Monica Burns, 2023-06-23. An overview of how teachers can use AI chatbots like ChatGPT to design learning experiences and accelerate their workflow as they learn about emerging technologies.

A Teacher's Guide to Conversational AI David A. Joyner, 2024-05-27. A Teacher's Guide to Conversational AI explores the practical role that language-based artificial intelligence tools play in classroom teaching, learning experiences, and student assessment. Today's educators are well aware that conversational and generative AI chatbots, intelligent tutoring systems, large language models, and more represent a complex new factor in teaching and learning. This introductory primer offers comprehensive, novice-friendly guidance into the challenges and opportunities of incorporating AI into K-12 schools and college classes in ways that are appropriate, nourishing to students, and outcomes-driven. Opening with an informative overview of the foundational properties, key terminology, and ethical considerations of these tools, the book offers a coherent and realistic vision of classrooms that are enhanced rather than stymied by AI systems. This includes strategies for designing assessments that are conducive to students' beneficial use of AI while mitigating overreliance or dishonesty; using AI to generate lesson examples for student critique or custom content that reinforces course principles; leveraging chatbots as a co-instructor or a tutor; a guide during student-driven learning; a virtual debate or brainstorming partner; and a design project and creating course content, lesson plans, and activities. Expanded language and accessibility options and beyond. Through the depth of understanding and applied approach provided in these chapters, teachers and leaders in training and in service, alongside private tutors, college instructors, and other educators will be better prepared to future-proof their efforts to serve new generations of learners.

AI-Driven Lead Generation: Use AI chatbots and email bots to capture and qualify prospects Caleb Joaquin Reyes, 2025-08-18. Is Your Sales Pipeline Running Dry? Stop Chasing Dead End Leads and Start Building an Automated Lead Machine That Works 24/7. Are you tired of spending a fortune on marketing campaigns that deliver a trickle of unqualified leads? Is your sales team wasting precious hours on prospects who aren't a good fit while high-value opportunities slip through the cracks? In today's hyper-competitive digital landscape, traditional lead generation is no longer enough. The future belongs to those who leverage speed, intelligence, and automation. The good news: You don't need a team of data scientists to dominate your market. You need a system. AI-Driven
