romance and adventure Romantic Times MIT professor Megan O Flannery is one of the world s leading research scientists on  
artificial intelligence for androids Most of her work consists of working with computer simulations so when the company  
MindSim gives Megan an opportunity to work with an android she jumps at the chance Hidden and secret an underground  
compound in the Nevada desert offers Megan a spectacular lab where she can live and work mostly alone except for robotic  
assistants and the android Although it appears physically indistinguishable from a human man Megan realizes she has a lot of  
work ahead if he is ever to think and act like a human let alone the superspy that MindSim wants him to be She loosens the  
controls on his behavior allowing the android who soon chooses the name Ander the freedom of more independent thought  
However when Raj Sundaram the reclusive genius of robotics arrives at the compound to work with the android Ander s  
behavior takes a strange turn causing Megan to distrust Raj As Ander s development spins out of control he throws the  
project into chaos going rogue even as he becomes stronger and more dangerously human This novel is clearly science
