Virtually every national standards document, every state framework, and every local set of standards calls for fundamental changes in what and how teachers teach. The challenge for teachers is to implement the vision for mathematics and science classrooms called for in the standards. This issue describes that vision and suggests ways to use the standards mandated in your school to improve your practice to help you teach in your standards-based classroom. **Internet Web Essentials**

Ernest Ackermann, Karen Hartman, 2001 **Letters to a New Teacher** Jim Burke, Joy Krajicek, 2006 Joy's questions and Jim's responses evoke in us an appreciation for what it means to do the work called teaching with the living intensity of soul. May such soulful teaching flourish among us. Here is a book that can help it be so. Parker Palmer and Sam Intrator. Every new teacher needs a mentor, someone smart, experienced, compassionate, and reliable to give advice, share strategies, and lend a supportive ear. What if every new English teacher could have one of the nation's most recognized master teachers as their mentor? Now they can. *Letters to a New Teacher* is the chance of a professional lifetime, an opportunity to read the letters and emails Jim Burke exchanged with novice teacher Joy Krajicek, letters in which Jim opens his practice, his mind, and his heart to guide Joy through her first year in the classroom. Jim fields the whole gamut of questions, from typical classroom management matters to challenging instructional situations to sensitive topics like the boundaries of student-teacher relationships. His answers open the classroom experience up for novices to understand how to organize their space and time, how to plan instruction yet maintain flexibility, how to communicate effectively with the two hundred personalities they encounter each day, and how to maintain professionalism under pressure. As gentle, humorous, and supportive as they are, practical. Jim's responses to Joy's questions are immediately useful and are presented in chronological order. From August through June, you'll watch as her questions become increasingly complex and see how Jim's answers build upon one another to create a considered, consistent, and disciplined way of thinking about the teaching of English. Start your career the right way. Read *Letters to a New Teacher* and put the thoughts of a master mentor to work in your classroom. Or give *Letters to a New Teacher* to a novice so they can discover a wellspring of ideas, a source for emotional sustenance, and a buoy for their spirits during difficult moments. *The Intentional Teacher* Ann S. Epstein, 2007. Here finally is a book that recognizes there is a middle ground where children and adults share responsibility for learning and that the most effective teachers make

thoughtful intentional use of both child guided and adult guided experience *The School Librarian* ,2005 **Leadership in English Language Teaching and Learning** Christine Anne Coombe,2008 Leadership skills are indispensable in language teaching and learning and the effectiveness of these skills directly affect the quality of language education the soundness of a program and the satisfaction level of both teachers and students in the language classrooms and beyond Part 1 of this collection provides the theoretical underpinnings of leadership development Part 2 focuses on leadership skills and strategies on the topics of interpersonal communication personal organization skills and program organization skills Part 3 discusses ELT leadership issues in U S public schools The contributors to this volume include leaders who have contributed to the TESOL profession in various capacities Their collective expertise makes this volume an excellent resource for teachers and program directors **Academic's Support Kit** Rebecca Boden,2005 *Literature Circles Through Technology* Terence W.
