The Intelligent Machine: An Introduction to Artificial Intelligence Dr. Ashwani Kumar, Mr. Vineet Kumar, Dr. Mohit Kumar, 2025-07-09

Advances in Human Factors in Training, Education, and Learning Sciences Salman Nazir, Tareq Z. Ahram, Waldemar Karwowski, 2021-06-26 This book addresses the importance of human factors in optimizing the learning and training process. It reports on the latest research and best practices relating to the application of behavioral and cognitive science and new technologies in the design of instructional and training content. It proposes innovative strategies for improving the learning and training experience and outcomes in different contexts including lower and higher education and different industry sectors. A special emphasis is given to digital and distance learning, gamification and virtual training. Gathering contributions to the AHFE 2021 Conference on Human Factors in Training Education and Learning Sciences held virtually on July 25-29, 2021 from USA, this book offers extensive information and a thought provoking guide for both researchers and practitioners in the field of education and training.

Kielhofner's Research in Occupational Therapy Renee Taylor, 2023-10-16 Renee Taylor and an international team of contributors carry on Gary Kielhofner's innovative vision to demystify the research process and demonstrate that research is essential to occupational therapy practice. They present a comprehensive guide to conducting applied research in the field from qualitative, quantitative and mixed perspectives for students and clinicians. You'll begin with a grounding in conducting evidence based practice in OT and an explanation of the six broad components of the research process. Then you will explore research designs, measurements and statistical analysis for qualitative and quantitative studies. You'll examine the steps and procedures required to conduct research and how research can be used to shape professional practice and improve patient care.

[Future surveillance for epidemic and pandemic diseases](#) World Health Organization, 2023-12-11 Surveillance is a pillar of the public health response to epidemics and pandemics. Yet gaps in surveillance from the local to the global continue to leave the world vulnerable to infectious hazards. To address these vulnerabilities, the health emergency preparedness response and resilience (HEPR) architecture calls for a new approach to future surveillance: collaborative surveillance that aligns traditional tactics with new initiatives to safeguard health for all. This report reflects the input and advice on future surveillance of leading experts with different skills, worldviews and experiences who share a commitment to better prepare for future infectious hazards. It charts a course towards future surveillance and collaborative action.
