Artificial Intelligence for Business Jeffrey L. Coveyduc,Jason L. Anderson,2020-04-09 Artificial Intelligence for Business A Roadmap for Getting Started with AI will provide the reader with an easy to understand roadmap for how to take an organization through the adoption of AI technology It will first help with the identification of which business problems and opportunities are right for AI and how to prioritize them to maximize the likelihood of success Specific methodologies are introduced to help with finding critical training data within an organization and how to fill data gaps if they exist With data in hand a scoped prototype can be built to limit risk and provide tangible value to the organization as a whole to justify further investment Finally a production level AI system can be developed with best practices to ensure quality with not only the application code but also the AI models Finally with this particular AI adoption journey at an end the authors will show that there is additional value to be gained by iterating on this AI adoption lifecycle and improving other parts of the organization

DATA-DRIVEN MARKETING IN THE AGE OF ARTIFICIAL INTELLIGENCE Dr. Raghava R. Gundala,Dr Pujari,Dr. G. VIJAYAKUMAR,2024-03-20 In order to maximize the effectiveness of brand communication and propel the expansion of a company data driven marketing is a strategic strategy that makes use of consumer data It entails gathering analyzing and making use of data from a variety of sources in order to obtain insights about the behavior tastes and trends of different types of customers This information is then used to create marketing strategies messaging and campaigns to particular audiences which ultimately results in marketing efforts that are more personalized and successful The expansion of online platforms and the introduction of digital technology have both played a vital role in the development of data driven marketing Today s organizations have access to large volumes of data that are created by interactions with customers activity on social media platforms visits to websites and other digital touchpoints The abundance of data that is available to marketers gives them with important information on the demographics interests purchasing history and online activity of their target audience population The use of data has evolved into an essential component of successful marketing campaigns in this era of digital technology The use of data driven marketing completely transforms the method in which firms comprehend and interact with their clientele clients 1 Businesses have the ability to get significant insights into the behavior tastes and trends of their customers by using the power of data analytics This introduction serves as a doorway to explore the ideas practices and advantages of data driven marketing It gives organizations the ability to harness data to drive growth improve customer connections and maintain a competitive advantage in a market that is highly competitive We invite you to accompany us on a trip into the realm of data driven marketing where each click interaction and transaction holds the key to unlocking new possibilities and driving success Now that we have a better understanding of data driven marketing we will investigate the ways in which companies may efficiently gather analyze and make use of data in order to personalize their marketing efforts
