Crazy States A Counterconventional Strategic Problem:

Crazy States Yehezkel Dror, 1980 **Strategic Review**, 1981 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States Strategic Culture and Weapons of Mass Destruction K. Kartchner, J. Johnson, 2009-01-05 This book describes strategic culture and its value as a methodological approach to the study of International Relations In particular the book uses strategic culture to illuminate a number of case studies on countries that have made decisions regarding the acquisition proliferation or use of weapons of mass destruction Rogue States as Norm Entrepreneurs Carmen Wunderlich, 2019-10-11 This book investigates whether so called rogue states assumed antagonists of a Western liberal world order could also act as norm entrepreneurs by championing the genesis and evolution of global norms The author explores this issue by analyzing the arms control policies of the Islamic Republic of Iran A comparison with the prototypical norm entrepreneur Sweden and the Democratic People's Republic of North Korea a notorious norm breaker reveals interesting insights for norm research Apparently norm entrepreneurship manifests itself in different degrees and phases of the norm life cycle The finding that Iran indeed acts as a norm entrepreneur in some cases also sheds light on those factors that might account for the success or failure of norm advocacy Lastly the book offers a new perspective on rogue states by not only regarding them as irrational antagonists of the current world order but also as legitimate participants in a discourse on what the ruling order should look like This book will appeal to scholars interested in critical norm research in international relations This book offers cutting edge norm research highlighting how norm breakers can function as norm makers Maria Rost Rublee Associate Professor of International Relations Monash University Australia So called rogue states are typically understood as norm breakers but Carmen Wunderlich makes a persuasive conceptual case backed by empirical research that we need to consider the extent to which they are in fact norm entrepreneurs in their own right In an era characterized by much concern over the status of liberal norms this is a very timely study Richard Price Department of Political Science The University of British Columbia Canada At a time when the world order is under pressure this cutting edge analysis of how dissatisfied states challenge existing global norms illuminates a topic crucial to understanding contemporary international relations Nina Tannenwald Director Watson Institute for International and Public Affairs Brown University Rhode Island USA **Strategic Instincts** Dominic D. P. Johnson, 2020-09-08 At the heart of much work in international relations is the attempt to understand why citizens and leaders act as they do and over the last decade a growing body of research has shown that the rational choice theory that has long guided this understanding is insufficient People do not always behave rationally instead most of us have psychological biases that cause us to behave irrationally As political science has integrated this new behavioral research the literature has tended to view such biases as source of errors or mistakes Yet for other fields most notably evolutionary biology the same psychological biases are recognized as adaptive heuristics that evolved to improve our decision making not

to undermine it In this book Johnson uses his cross disciplinary training to push this evolutionary understanding of biases into the study of politics Specifically he asks when and how can psychological biases cause or promote success in the realm of international relations Johnson focuses on three of the most prominent psychological biases overconfidence the fundamental attribution error the tendency to see others actions as motivated by personality rather than the influence of external situational factors and in group out group bias favoring members of group one identifies with over those one does not He outlines the scientific research on each bias explores its adaptive advantages and then gives detailed historical examples where the bias seems to have caused strategic advantages focusing on the American Revolution overconfidence the UK and the appeasement of Hitler fundamental attribution error and the Pacific campaign in WW2 group bias He then circles back to acknowledge the dark side of biases when taken to the extreme considering how confidence becomes hubris the attribution error becomes paranoia and group bias becomes racism Ultimately Johnson argues that this evolutionary perspective is the crucial next step in bringing psychological insights to bear on the foundational questions in the field

Understanding Terrorism Gus Martin,2013 With a particular emphasis on terrorist incidents this fourth edition has been fully updated to provide readers with a wide ranging and crucial resource on contemporary terrorism *A Palestinian State* Mark Heller,1983 The future of the West Bank and Gaza remains the single most crucial issue in the search for peace in the Middle East Heller outlines the conditions under which he believes the establishment of a Palestinian state could be the optimal solution He also discusses the economic prospects of a Palestinian state and the future of Jerusalem **Countering the New Terrorism** Ian O. Lesser,1999 Recent bombings of U S embassies in Africa remind us that U S citizens and U S interest are not immune to terrorism Featuring the works of world renowned experts this book traces the recent evolution of international terrorism against civilian and U S military targets looks ahead to where terrorism is going and assesses how it might be contained **The Publishers Weekly** ,1972 **Arms Control & Disarmament** ,1973 *Handbook of Systems Analysis: Craft issues and procedural choices* Hugh J. Miser,Edward S. Quade,1985 **Rethinking the Process of Operational Research and Systems Analysis** Rolfe Cartwright Tomlinson,István Kiss,1984 *Israeli Security Planning in the 1980s* Zvi Lanir,1984 *International Terrorism in the Contemporary World* Marius H. Livingston,Lee Bruce Kress,Marie G. Wanek,1978-09-07 **Educating for a New Millennium** Harold Gray Shane,M. Bernadine Tabler,1981 Concepts for survival the views of 132 scholars in the natural and social sciences **Hegemony Constrained** Davis B. Bobrow,2008 Considers how and why a variety of foreigners act strategically to avoid delay or change American policy with respect to a broad range of issues in world affairs This book contains chapters which analyze topics such as the Kurds and Shia in Iraq the governments of China Japan Turkey and Germany the G 7 and coping with global warming **The World of Terrorism** Nau Nihal Singh,1989 **Journal of International Affairs** ,1972 **Studies in Nuclear Terrorism** Augustus R. Norton,Martin Harry Greenberg,1979 **Political Development and Change** Garry D. Brewer,Ronald D. Brunner,1975
