Creating an Inclusive School S. K. Mangal, 2017 *The Making of the Inclusive School* Gary Thomas, David Walker, Julie Webb, 2006-04-19 Inclusion is a buzzword of the 1990s Politicians now stress their commitment to inclusion and

social justice not competition For schools inclusion means accepting and educating all children irrespective of their difficulties The new inclusive mood is about including everyone in society s institutions It has created a growing demand for schools to find effective ways of including and teaching all children even those who at one time would have been sent to special schools The book combines a theoretical examination of inclusion and its rationale with the story of a group of schools in which teachers assistants and children have striven to make inclusion happen This new book explores the arguments for inclusive schools examines the international evidence about children s well being and academic progress in inclusive schools describes how the pioneers have developed their practice for inclusion presents the findings of an in depth 18 month study of a group of schools which have striven to make inclusion happen

From Exclusion to Excellence Michal Razer, Victor J. Friedman, 2017-01-28 The authors draw on their 30 years of action research activities helping educators provide a meaningful education to at risk excluded students They explain how teacher well being is a precondition for building the sorts of relationships that enable excluded students to learn They present in detail four concrete skills non abandonment reframing connecting conversation and emphatic limit setting for reaching children and at the same time strengthening educators emotional resilience and professional pride They address how schools can rethink and reshape

the way they relate to parents of excluded children so as to allow both sides to trust and empower each other If you are a teacher this book will help you make sense of the difficulties you face daily and provide you with reliable methods for working more effectively If you are a principal or policymaker it will show how the road to excellence begins with inclusion and with providing teachers the kind of support that enables them to succeed I am not an education expert but you don't have to be to want to implement the conclusions that Michal Razer and Victor J Friedman make about schools to societies as a whole To produce a successful school serving the needs of all of its students you need to focus before passing out any curriculum or teaching any classes on building that elusive thing called trust or what the authors call inclusion When there is trust in the classroom when every student believes that they and their aspirations matter to a teacher everything is possible and everything is easier the most difficult students become more educable and inspired and take more ownership over their success and the best students soar even higher This book should be read by teachers parents and politicians alike because its incisive recommendations for building more successful schools apply just as much to families and parliaments Thomas L Friedman New York Times columnist
