CHANGE Emmanuel Erim, 2019-07 The most mysterious event of life is change change is either positive or negative and everything in the world is experiencing change As insignificant as an element of change it will surely manifest a significant change Change in all definition is a gradual differentiation with time which can be traced or noticed Change existed in the very beginning of things and still exist now we can say that the creation were changes resulting from the commands from the Creator The command is the action and the result became a change noticeable as creation Change is continuous and will keep occurring which means that creation is continuous as the sun s shadow shifts so there is no permanence on earth Everything comes to pass nothing comes to stay and nothing remains constant except change itself
