Creation Vs. Evolution Dorie Erickson, 1980-01-01 *Creationism Vs Evolution* Dr Barbara R. Castro, 2017-12-20 It was a debate that Dr Barbara Castro knew she would eventually face as a biology teacher Creationism vs Evolution Evolution in public schools had become commonplace curriculum when Barbara first began teaching but having skipping the lesson with students for years she decided it was time for individual research on evidence of Evolution in comparison with her Bible led knowledge The result is her new book Creationism vs Evolution which is a helpful guide for Christian parents education on teaching children evolution and God Her discussion begins with a study of the Big Bang Theory in contrast to the Bible s Genesis as creation of Earth expanding there to the basic laws of thermodynamics DNA and heredity and findings from Gregor Mendel and genetics The ultimate discussion on Charles Darwin and his belief in transmutation species is Barbara s chief reasoning that God created the Earth and mankind thus how life began

Creation Or Evolution Michael William Poole, 1987 Creation or Evolution? Michael Ebifegha, 2011-03-31 Were humans created or did they evolve This debate continues to rage between science and religion In Creation or Evolution author Michael Ebifegah examines these two worldviews within the framework of science He examines the constraints of science as an explanatory framework for the origin of species and compares the contemporary world to a hypothetical world under the influence of evolutionary processes and agency Additionally he considers the irrelevance of the earths age to the creationist evolutionist controversy He stresses that knowledge of the intersection between the origin of life and the origin of species is required to establish the latter Ebifegah augments the natural selection discussion in light of Fodor and Piattelli Palmarinis work and addresses sciences limitations in deploying similarity dissimilarity arguments in the debate about creationism versus evolutionism Finally he focuses on the lack of historical evidence to justify an evolutionary worldview Creation or Evolution discusses how the M theory and Charles Darwins paradigm of evolution by natural selection are outside the limits of science Ebifegah shows that we must look beyond the inadequacy of such theories and address the validity of science as the sole avenue of inquiry
