Crazy Makers Living With Insensitive Tac:

Minding the Body Ellyn Kaschak, 2014-01-27 Support and empower women who are coping with the pain fear and stigma of serious disease Being diagnosed with cancer chronic fatigue syndrome or fibromyalgia is a traumatic event that takes place at a time when the patient is already feeling physically and often emotionally drained *Minding the Body* combines feminist and social constructionist approaches to offer an intimate look into the ways a therapist can help clients cope with the pain fear and stigma of serious disease *Minding the Body* offers an alternative to the reductive view of the mind body connection and also examines the potential for growth that such experiences often allow The essays gathered here show how an effective therapist can help the client deal with the painful and difficult emotions that exacerbate illness while learning the emotional and spiritual lessons illness can teach *Minding the Body* presents both theoretical views and personal accounts of illness including scholarly discussions of the issues involved in autoimmune disorders a therapist's personal experience of chronic fatigue syndrome a personal and professional exposition of a woman's struggles with injury illness and managed care co written by client and therapist suggestions for understanding the social construction of illness and treating disease from a social constructivist point of view narratives reflecting on the change and growth of therapists diagnosed with cancer and other serious illnesses By looking at illness in the context of mind body society and medical establishment *Minding the Body* will help therapists doctors nurses counselors and clients deal with the grief disappointment and frustration of chronic and life threatening illness

Meeting the Demands of Reason Jay Bergman, 2011-03-15 The Soviet physicist dissident and human rights activist Andrei Sakharov 1921 1989 was awarded the Nobel Peace Prize in 1975 The first Russian to have been so recognized Sakharov in his Nobel lecture held that humanity had a sacred endeavor to create a life worthy of its potential that we must make good the demands of reason by confronting the dangers threatening the world both then and now nuclear annihilation famine pollution and the denial of human rights *Meeting the Demands of Reason* provides a comprehensive account of Sakharov's life and intellectual development focusing on his political thought and the effect his ideas had on Soviet society Jay Bergman places Sakharov's dissidence squarely within the ethical legacy of the nineteenth century Russian intelligentsia inculcated by his father and other family members from an early age In 1948 one year after receiving his doctoral candidate's degree in physics Sakharov began work on the Soviet hydrogen bomb and later received both the Stalin and the Lenin prizes for his efforts Although as a nuclear physicist he had firsthand experience of honors and privileges inaccessible to ordinary citizens Sakharov became critical of certain policies of the Soviet government in the late 1950s He never renounced his work on nuclear weaponry but eventually grew concerned about the environmental consequences of testing and feared unrestrained nuclear proliferation Bergman shows that these issues led Sakharov to see the connection between his work in science and his responsibilities to the political life of his country In the late 1960s Sakharov began to condemn the Soviet system as a whole in the name of universal human rights By the 1970s he had become with Alexander

Solzhenitsyn the most recognized Soviet dissident in the West which afforded him a measure of protection from the authorities In 1980 however he was exiled to the closed city of Gorky for protesting the Soviet invasion of Afghanistan In 1986 the new Gorbachev regime allowed him to return to Moscow where he played a central role as both supporter and critic in the years of perestroika Two years after Sakharov's death the Soviet Union collapsed and in the courageous example of his unyielding commitment to human rights skillfully recounted by Bergman Sakharov remains an enduring inspiration for all those who would tell truth to power **The EC Archives: War Against Crime Volume 1** Lee Ames,Johnny
