In the Secret Place Peggy Britt, 2006-10 For those who feel lost and hurt Britt offers a guide to help them come into God's Secret Place Motivation God Is Speaking - Are You Listening? Steven W. Raasumaa, 2002 In July 1998 GOD approached a man to assist GOD and channel his will into the written word This book is the result of that conversation GOD is responsible for the flow topics and discussions The man simply wrote what GOD spoke and what thoughts he received GOD is speaking Are you listening My Story is GOD'S full disclosure to his human family including his laws of Life and Death He speaks to Steve as a friend That is a friend of GOD'S chosen by GOD The fact that anyone would be allowed to hear his voice is astonishing In this day and age of miracles is it so far fetched not to believe He speaks to Steve of his world Heaven He speaks of his Love for his human family GOD tells it like he sees it No soft touch no political correctness just the plain truth GOD'S Truth July 5th 1998 4 00 P M I AM the GOD of ALL The reason for this writing is that the stories I AM about to unfold to you through my friend Steve are stories to teach inspire and to create hope Hope in that when you greet me in my Heavenly Kingdom you will have a better understanding appreciation and moral imperatives necessary to the alleviation of your guilt I AM in the world as a spirit of Love hope divine inspiration and most of all understanding I have tried to conquer you and your fears by sending messengers to your world Moses Abraham Isaac and Jesus the Christ I have been alive 50 million of your Earth years and the stories I AM about to tell you are just one of many told countless times in my Kingdom

The Non-Identity Problem and the Ethics of Future People David Boonin, 2014-10-16 David Boonin presents a new account of the non identity problem a puzzle about our obligations to people who do not yet exist Our actions sometimes have an effect not only on the quality of life that people will enjoy in the future but on which particular people will exist in the future to enjoy it In cases where this is so the combination of certain assumptions that most people seem to accept can yield conclusions that most people seem to reject The non identity problem has important implications both for ethical theory and for a number of topics in applied ethics including controversial issues in bioethics environmental ethics and disability ethics It has been the subject of a great deal of discussion for nearly four decades but this is the first book length study devoted exclusively to its examination Boonin begins by explaining what the problem is why the problem matters and what criteria a solution to the problem must satisfy in order to count as a successful one He then provides a critical survey of the solutions to the problem that have thus far been proposed in the sizeable literature that the problem has generated and concludes by developing and defending an unorthodox alternative solution one that differs fundamentally from virtually every other available approach M-Z Alexander Schmidt, 1886 To Create a Department of International Trade and Investment United States.
