Imitation and Creativity in Japanese Arts Michael Lucken, 2016-03-29 The idea that Japanese art is produced through rote copy and imitation is an eighteenth century colonial construct with roots in Romantic ideals of originality Offering a much needed corrective to this critique Michael Lucken demonstrates the distinct character of Japanese mimesis and its dynamic impact on global culture showing through several twentieth century masterpieces the generative and regenerative power of Japanese arts Choosing a representative work from each of four modern genres painting film photography and animation Lucken portrays the range of strategies that Japanese artists use to re present contemporary influences He examines Kishida Ryusei's portraits of Reiko 1914 1929 Kurosawa Akira's *Ikiru* 1952 Araki Nobuyoshi's photographic novel *Sentimental Journey* Winter 1991 and Miyazaki Hayao's popular anime film *Spirited Away* 2001 revealing the sophisticated patterns of mimesis that are unique but not exclusive to modern Japanese art In doing so Lucken identifies the tensions that drive the Japanese imagination which are much richer than a simple opposition between progress and tradition and their reflection of human culture's universal encounter with change This global perspective explains why despite its non Western origins Japanese art has earned such a vast following

The Culture of Copying in Japan Rupert Cox, 2007-09-12 This book challenges the perception of Japan as a copying culture through a series of detailed ethnographic and historical case studies It addresses a question about why the West has had such a fascination for the adeptness with which the Japanese apparently assimilate all things foreign and at the same time such a fear of their skill at artificially remaking and automating the world around them Countering the idea of a Japan that deviously or ingenuously copies others it elucidates the history of creative exchanges with the outside world and the particular myths philosophies and concepts which are emblematic of the origins and originality of copying in Japan The volume demonstrates the diversity and creativity of copying in the Japanese context through the translation of a series of otherwise loosely related ideas and concepts into objects images texts and practices of reproduction which include shamanic theatre puppetry tea utensils Kyoto town houses architectural models genres of painting calligraphy and poetry sample food displays and the fashion and car industries
