## **Creating Equal My Fight Against Race Preferences:**

**Creating Equal** Ward Connerly, 2000 Ward Connerly first burst onto the American scene 1995 as the University of California Regent who had forced the largest public university in the country to become color blind in its admissions policies Connerly led the 1996 campaign to pass California's Proposition 209 In 1998 he spearheaded a similar successful anti discrimination measure in Washington *Creating Equal* chronicles Connerly's unique friendship with California governor Pete Wilson as well as his encounters with figures like Bill Clinton and Al Gore mogul Rupert Murdoch Gen Colin Powell and Jesse Jackson But above all this book tells about how one man's willingness to break ranks created a movement whose end is not yet in sight [American Higher Education Transformed, 1940-2005](#) Wilson Smith, Thomas Bender, 2008-04-11 This long awaited sequel to Richard Hofstadter and Wilson Smith's classic anthology *American Higher Education A Documentary History* presents one hundred and seventy two key edited documents that record the transformation of higher education over the past sixty years The volume includes such seminal documents as Vannevar Bush's 1945 report to President Franklin D Roosevelt *Science the Endless Frontier* the U S Supreme Court decisions in *Brown v Board of Education* and *Sweezy v New Hampshire* and Adrienne Rich's challenging essay *Taking Women Students Seriously* The wide variety of readings underscores responses of higher education to a memorable often tumultuous half century Colleges and universities faced a transformation of their educational goals institutional structures and curricula and admission policies the ethnic and economic composition of student bodies an expanding social and gender membership in the professoriate their growing allegiance to and dependence on federal and foundation financial aids and even the definitions and defenses of academic freedom Wilson Smith and Thomas Bender have assembled an essential reference for policymakers administrators and all those interested in the history and sociology of higher education *Encyclopedia of African American History, 1896 to the Present* Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century [Color and Money](#) Peter Schmidt, 2025-03-14 What is the real story behind the fight over affirmative action at colleges Veteran journalist Peter Schmidt exposes truths that will outrage readers and forever transform the debate He reveals how colleges use affirmative action to mask how much they cater to the country club crowd and to solicit support from the big corporations they steer minority students toward conservatives have used opposition to affirmative action to advance a broader agenda that includes gutting government programs that help level the playing field selective colleges reward families for shielding their children from contact with other races and classes and help perpetuate societal discrimination by favoring applicants from expensive private schools or public schools in exclusive communities racial tensions like those witnessed at Duke University the University of Michigan and scores of other campuses in recent decades are a direct result of college admissions policies affirmative action preferences for women and minorities may have survived recent court

challenges but in much of the nation they are unlikely to survive the forces of democracy and regardless of what happens with affirmative action African Americans are going to be denied equal access to colleges for many decades to come unless American society undergoes revolutionary change This is a startling brave and thoroughly researched book that will ignite a national debate on class and education for years to come Black Conservative Intellectuals in Modern America Michael L. Ondaatje, 2011-11-29 In the last three decades a brand of black conservatism espoused by a controversial group of African American intellectuals has become a fixture in the nation's political landscape its proponents having shaped policy debates over some of the most pressing matters that confront contemporary American society Their ideas though have been neglected by scholars of the African American experience and much of the responsibility for explaining black conservatism's historical and contemporary significance has fallen to highly partisan journalists Typically those pundits have addressed black conservatives as an undifferentiated mass proclaiming them good or bad right or wrong color blind visionaries or Uncle Toms In Black Conservative Intellectuals in Modern America Michael L. Ondaatje delves deeply into the historical archive to chronicle the origins of black conservatism in the United States from the early 1980s to the present Focusing on three significant policy issues affirmative action welfare and education Ondaatje critically engages with the ideas of nine of the most influential black conservatives He further documents how their ideas were received both by white conservatives eager to capitalize on black support for their ideas and by activists on the left who too often sought to impugn the motives of black conservatives instead of challenging the merits of their claims While Ondaatje's investigation uncovers the themes and issues that link these voices together he debunks the myth of a monolithic black conservatism Figures such as Supreme Court Justice Clarence Thomas the Hoover Institution's Thomas Sowell and Shelby Steele and cultural theorist John McWhorter emerge as individuals with their own distinct understandings of and relationships to the conservative political tradition

**Mismatch** Richard Sander, Stuart Taylor Jr, 2012-10-09 The debate over affirmative action has raged for over four decades with little give on either side Most agree that it began as noble effort to jump start racial integration many believe it devolved into a patently unfair system of quotas and concealment Now with the Supreme Court set to rule on a case that could sharply curtail the use of racial preferences in American universities law professor Richard Sander and legal journalist Stuart Taylor offer a definitive account of what affirmative action has become showing that while the objective is laudable the effects have been anything but Sander and Taylor have long admired affirmative action's original goals but after many years of studying racial preferences they have reached a controversial but undeniable conclusion that preferences hurt underrepresented minorities far more than they help them At the heart of affirmative action's failure is a simple phenomenon called mismatch Using dramatic new data and numerous interviews with affected former students and university officials of color the authors show how racial preferences often put students in competition with far better prepared classmates dooming many to fall so far behind that they can never catch up Mismatch largely explains why even though black applicants are more

likely to enter college than whites with similar backgrounds they are far less likely to finish why there are so few black and Hispanic professionals with science and engineering degrees and doctorates why black law graduates fail bar exams at four times the rate of whites and why universities accept relatively affluent minorities over working class and poor people of all races Sander and Taylor believe it is possible to achieve the goal of racial equality in higher education but they argue that alternative policies such as full public disclosure of all preferential admission policies a focused commitment to improving socioeconomic diversity on campuses outreach to minority communities and a renewed focus on K 12 schooling will go farther in achieving that goal than preferences while also allowing applicants to make informed decisions Bold controversial and deeply researched Mismatch calls for a renewed examination of this most divisive of social programs and for reforms that will help realize the ultimate goal of racial equality

**The Michigan Affirmative Action Cases** Barbara Ann Perry,2007 A compelling look at the two closely linked and controversial 2003 Supreme Court decisions that revisited the practice and constitutionality of affirmative action at the college level The result was a divided opinion that neither completely repudiated affirmative action nor completely condoned its practice

In Defense of Uncle Tom Brando Simeo Starkey,2015-01-12 This book shadows the usage of Uncle Tom to understand how social norms associated with the phrase were constructed and enforced
