LEADERSHIP FOR BETTER SCHOOLS

Creating Better Schools

Judith A. Langer

Creating Better Schools:

Creating an Excellent School Hedley Beare, Brian J. Caldwell, Ross H. Millikan, 1989 How can a school become excellent This book takes four important developments in recent educational administration theory and shows how these ideas can be applied to improve schools and create centres of excellence

Building School 2.0 Chris Lehmann, Zac Chase, 2015-07-31 Ninety five propositions for creating more relevant more caring schools There is a growing desire to reexamine education and learning Educators use the phrase school 2 0 to think about what schools will look like in the future Moving beyond a basic examination of using technology for classroom instruction Building School 2 0 How to Create the Schools We Need is a larger discussion of how education learning and our physical school spaces can and should change because of the changing nature of our lives brought on by these technologies Well known for their work in creating Science Leadership Academy SLA a technology rich collaborative learner centric school in Philadelphia founding principal Chris Lehmann and former SLA teacher Zac Chase are uniquely qualified to write about changing how we educate The best strategies they contend enable networked learning that allows research creativity communication and collaboration to help prepare students to be functional citizens within a modern society Their model includes discussions of the following key concepts Technology must be ubiquitous necessary and invisible Classrooms must be learner centric and use backwards design principles Good technology can be better than new technology Teachers must serve as mentors and bring real world experiences to students Each section of Building School 2 0 presents a thesis designed to help educators and administrators to examine specific practices in their schools and to then take their conclusions from theory to practice Collectively the theses represent a new vision of school built off of the best of what has come before us but with an eye toward a future we cannot fully imagine

Creating Great Schools Phillip C. Schlechty, 2005-02-21 Helping educational leaders sustain continuous innovation and improvement in schools this text presents a framework for understanding the norms behaviours and structures that make school systems so intractable to change

Building Better Schools with Evidence-based Policy Kelly-Ann Allen, Andrea Reupert, Lindsay Oades, 2021-04-29 Building Better Schools with Evidence based Policy Adaptable Policy for Teachers and School Leaders provides an extensive set of free to use policies for building better schools The policies included in this book cover a broad range of popular topics for schools that are not readily accessible and each policy is built on theory driven by research and created by experts Each policy is based on substantial evidence and this is ensured through the inclusion of contributors who are active and highly reputable in their respective field Most schools are obliged to write and maintain policy and not all school leaders have the required skills time or expertise to do this effectively Building Better Schools with Evidence based Policy Adaptable Policy for Teachers and School Leaders is a time saving resource for schools It aims to address the reported research to practice gap in education by delivering accessible evidence based practice in a ready to use adaptable format All policies within this book are designed to be adapted and tailored to the unique

diversity and needs of each school as reflected by the context and the people that make up the school community This book is relevant to every person who works in a school worldwide Users of this book can rest assured that each policy has been carefully formulated from the current understandings of best practice This is a practical innovation and an example of how schools can use research evidence in their day to day practices The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Developing Leadership: Creating The Schools Of Tomorrow* Coles, Martin, Southworth, Geoff, 2004-11-01
