Creation and Evolution Derek Burke, 1985      Four Views on Creation, Evolution, and Intelligent Design

Zondervan, 2017-11-21 Evolution or the broader topic of origins has enormous relevance to how we understand the Christian faith and how we interpret Scripture Four Views on Creation Evolution and Intelligent Design presents the current state of the conversation about origins among evangelicals representing four key positions Young Earth Creationism Ken Ham Answers in Genesis Old Earth Progressive Creationism Hugh Ross Reasons to Believe Evolutionary Creation Deborah B Haarsma BioLogos Intelligent Design Stephen C Meyer The Discovery Institute The contributors offer their best defense of their position addressing questions such as What is your position on origins understood broadly to include the physical universe life and human beings in particular What do you take to be the most persuasive arguments in defense of your position How do you demarcate and correlate evidence about origins from current science and from divine revelation What hinges on answering these questions correctly This book allows each contributor to not only present the case for his or her view but also to critique and respond to the critiques of the other contributors allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ      *Themelios, Volume 39, Issue 1* D. **on Your Children** Charleton D. King, 2023-12-19 It was a slow realization over many years that I had been living a divided life as a Christian teaching in the public school system I had no problem teaching at a public school myself but I simultaneously refused to send my children to the same school because I didn't want them exposed to what was taught there

The inconsistency was clear in the minds of others when they found out that I homeschooled my children but it took years for it to become clear to me After a decade in teaching I felt convicted to resign This book recounts the several moments and realizations that led up to my decision to leave public education     Creationism Revisited Colin Mitchell,1999     *Judaism and Christianity, Their Agreements and Disagreements* Isaac Mayer Wise,1888     **Faith Reads** David Rainey,2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection     *Facets of Faith and Science: The role of beliefs in the natural sciences* Jitse M. van der Meer,1996

Questions You Shouldn't Ask about Christianity Stephen M. Miller,1987-10     The Lie Ken Ham,2012-10-15 Today Christians and those considering the Christian faith increasingly doubt the Bible s reliability Why What changed Revised Expanded for this special 25th anniversary edition Ken Ham points out the looming precipice too many church leaders are rushing towards a denial of the full authority and accuracy of the Bible from its very first verse In addition Ken powerfully shows how the unproven unscientific philosophy of evolution is driving young people away from the Christian faith and provides solid biblical solutions to turn things around The Lie uncovers Why Genesis remains critically important in presenting the Gospel This slippery slope of reinterpreting Scripture and redefining biblical doctrine How the handling of the biblical account of creation impacts your understanding of all of Scripture and your worldview The collapsing structure of Christianity as Genesis is questioned compromised and dismissed The religion of evolution The authority of God s Word versus man s fallible word Genesis as the foundation for all biblical doctrine Evolutionary ideas are actually destructive to the foundational message of the Cross of Jesus Christ Evolution is used to justify social issues such as abortion communism drug abuse homosexual practices and worse The successful use of creation evangelism to present the whole gospel message These issues are of critical importance when you realize that today we have Christians questioning Genesis the age of the earth the reality of Hell Adam as a real person and Christ s own words about creation marriage and more One compromise just leads to another and it has to end if we want to leave a legacy of faith to future generations Churches individuals and Bible colleges are using this Christian apologetic resource to strengthen their faith families and sharing of the whole gospel of Jesus Christ
