 Management System* Sid Benraouane, H. James Harrington, 2021-06-29 In 2019 ISO Technical Committee 279 released a new  
 international standard on innovation management system called ISO 56002 2019 The objective of this standard is to provide  
 a framework on how to build an innovation ecosystem that can be sustained over time Similar to the quality management  
 system that ISO established decades ago this standard provides instructions related to best practices on how to manage  
 innovation activities projects and programs It does not describe detailed activities within the organization but rather provides  
 guidance at a general level It does not prescribe any requirements or specific tools or methods for innovation activities  
 Essentially the standard does not provide guidance on how to implement and or use the standard The standard basically tells  
 you what to do and document this powerful book tells you how to do it The techniques in this book are directed at key tasks  
 across the innovative process such as maximizing quality productivity maintainability usability and reliability while focusing  
 on reducing the product cycle time and costs within the innovative process Currently there are no other comprehensive  
 books available on how to fully implement this standard in companies This book is crucial for managers business leaders  
 entrepreneurs and consultants looking for help to reap the benefits of an innovation management system This book takes you  
 step by step through the process of developing an innovation ecosystem In addition it provides frameworks tools
