Christian Faith And History:

The Faith Brian Moynahan, 2007-12-18 Beginning with the birth of Jesus and tracing the religion established by his followers up to the present day *The Faith* is a comprehensive exploration of the history of Christianity judiciously covering all the signal moments without bogging down in minutia author Brian Moynahan's superbly written and generously illustrated book is of central importance to Christians historians and anyone interested in a faith that shaped the modern world Moynahan's research uses little known sources to tell a magnificent story encompassing everything from the early tremulous years after Jesus' death to the horrors of persecution by Nero from the growth of monasteries to the bloody Crusades from the building of the great cathedrals to the cataclysm of the Reformation and the Catholic Counter Reformation from the flight of pilgrims from Europe in pursuit of religious freedom to the Salem Witch Trials from the advent of a traveling pope to the rise of televangelists Coming just in time for Jubilee 2000 this ambitious book reveals and commemorates the significance of the Christian faith

The Faith Brian Moynahan, 2002 Moynahan traces the extraordinary journey that Christianity has made from its start as a small and vulnerable sect They were crucified or set on fire Tacitus wrote of Christians in Nero's Rome so that when darkness came they burned like torches in the night to the world's greatest congregation of almost two billion baptized souls *The Faith* opens with the story of Jesus himself the Resurrection and the spreading of the Gospels It shows how the young religion's growing power in the East the cradle of its early monks and philosophers was broken by the Islamic conquests and how its energies were redirected westward into barbarian Europe Moynahan covers in lucid detail the intensity of the medieval faith with its titanic cathedrals its clashes between Islam and Christendom and its fracture into Reformation Catholic Counter Reformation and the religious dissent that drove settlers to seek religious freedom in the Americas Based on little known primary sources including early Arabic writings and featuring more than one hundred photographs and illustrations this extraordinary history will be of interest to Christians of all denominations to historians and to every reader who seeks a fuller understanding of a force that has shaped the modern world BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

History and Christian Faith Edward W. H. Vick, 2003 A basic Christian claim is that God is active in human history to accomplish his purpose which he will do in the end This book considers some of the implications of this far reaching claim Christian faith is bound up with our personal history but beyond that stretches far into the past Faith is not identical with historical knowledge for example with knowledge of the facts about Jesus facts which must be established historically That involves using the historian's methods of investigation What does God reveals himself in history mean Christians claim to find an ultimate meaning in history But how can that be How is it possible to find an overall meaning in history theistic or otherwise Since Christians appeal to the New Testament in making the claim that God revealed himself in Jesus we must go beyond that book to the Christian community which existed before there was a New Testament and out of whose midst its writings came To understand those books we must interpret So

where do our principles of interpretation come from and how valid are they This is the question of tradition This small book is an introduction to these interesting topics Hopefully it will help to clarify important issues and lead the reader to investigate such central matters further

The Story of Christianity David Bentley Hart, 2015-08-04 The story of Christianity is an immeasurably fascinating one A faith that began in Roman occupied Palestine as a small and fugitive faction within Judaism grew thrived and finally conquered the empire that had sought to exterminate it Then over many centuries and in many lands it became the vital source from which new civilizations sprang At times its geographical range expanded mightily at others contracted perilously At times the church proved heroically true to its deepest moral principles at others inexcusably traitorous to them But by the beginning of the 21st century this faith that began in such fragility and that became so powerful even though its temporal power has now receded in its historic homelands is the most widespread and diverse of all religions Christianity is rapidly taking root in cultures very different from those in which it was born and in which it once flourished and is assuming configurations that could not have been anticipated a century ago In *The Story of Christianity* the distinguished theologian David Bentley Hart provides a broad picture of Christian history Presented in 50 short chapters each focusing on a critical facet of Christian history or theology and each amplified by timelines quotations and color images his magisterial account does full justice to the range of Christian tradition belief and practice Eastern Orthodox Roman Catholic Anglican Presbyterian Evangelical Coptic Chaldean Ethiopian Orthodox Armenian Orthodox Malankaran to name but a few of the many possibilities From the persecutions of the early church to the papal imperial conflicts of the Middle Ages from the religious wars of 16th and 17th

century Europe to the challenges of science and secularism in the modern era and from the ancient Christian communities of Africa and Asia to the house churches of contemporary China The Story of Christianity triumphantly captures the heterogeneous richness of Christian history

The First Three Christian Centuries Islay Burns, 1884 *Healing in the History of Christianity* Amanda Porterfield, 2005-08-25 Healing is one of the most constant themes in the long and sprawling history of Christianity Jesus himself performed many miracles of healing In the second century St Ignatius was the first to describe the eucharist as the medicine of immortality Prudentius a 4th century poet and Christian apologist celebrated the healing power of St Cyprian's tongue Bokenham in his 15th century *Legendary* reported the healing power of milk from St Agatha's breasts Zulu prophets in 19th century Natal petitioned Jesus to cure diseases caused by restless spirits And Mary Baker Eddy invoked the Science of Divine Mind as a weapon against malicious animal magnetism In this book Amanda Porterfield demonstrates that healing has played a major role in the historical development of Christianity as a world religion Porterfield traces the origin of Christian healing and maps its transformations in the ancient medieval and modern worlds She shows that Christian healing had its genesis in Judean beliefs that sickness and suffering were linked to sin and evil and that health and healing stemmed from repentance and divine forgiveness Examining Jesus' activities as a healer and exorcist she shows how his followers carried his combat against sin and evil and his compassion for suffering into new and very different cultural environments from the ancient Mediterranean to modern America and beyond She explores the interplay between Christian healing and medical practice from ancient times up to the present looks at recent discoveries about religion's biological effects and considers what these findings mean in light of ages old traditions about belief and healing Changing Christian ideas of healing Porterfield shows are a window into broader changes in religious authority church structure and ideas about sanctity history resurrection and the kingdom of God Her study allows us to see more clearly than ever before that healing has always been and remains central to the Christian vision of sin and redemption suffering and bodily resurrection
