Our Shadowed World Dominic Kirkham, 2019-08-08 Civilization is often equated with the story of human advancement and progress Yet it is also the story of human oppression exploitation war and empire In our own time modern global civilization has brought us to the brink of planetary destruction By offering an understanding of our past this book aims to provide a stimulus to considering a different future Our Shadowed World considers how we have been brought to this point It describes how the fragmented and conflicted state of humanity has progressed from the earliest city states to the devastation of world war and holocaust how civilization has brought its own form of savagery What beliefs have underlain and motivated human action How have humans tried to understand their world Driven by the relentless quest for power by greed and by extreme beliefs the human enterprise today has placed the very idea of civilization under threat the subject of radical questioning Despite a new ecological awareness dedicated to saving the planet from civilization's carelessness and a preoccupation with the nature of apocalyptic thinking a question mark looms over the very survival of humanity in its present state a question mark that now overshadows the world

Reflections on God and the Death of God Richard White, 2021-10-31 What is God What does it mean to believe in God What happens to God after the death of God This book examines the death of God from a philosophical standpoint It focuses on monotheism polytheism and nature and it discusses the renewed importance of spirituality and the spiritual but not religious in response to the death of God In recent years religious belief has been in decline but secularism cannot satisfy our spiritual needs We are now living in a post secular age in which the relationship between philosophy spirituality and religion must be re examined As an exploratory essay this book engages the reader at a profound level and considers a variety of modern thinkers including Nietzsche Hegel Freud Levinas Assmann and Buber It offers a sustained meditation on the origin of God the death of God and the future of God as a guiding ideal

Taking Caesar Out of Jesus Robert M. Wills, 2013-10 Jesus is the center of Christian faith and the Bible is its holy book its sacred scriptures For hundreds of years this meant that Jesus was divine and the Bible was a divine product This remains the primary perspective for many Christians today However it has mutated appreciably for others It is not that Jesus is no longer thought of as the center of Christian faith or the Bible as Christianity's sacred scriptures Those remain true for everyone However studies in biblical criticism and the historical Jesus suggest Jesus was a Palestinian Jew a human being not different in that respect from you and me Divinity was bestowed upon him by his followers and eventually took the form of imperial divinity after the example of Caesar This presents a conundrum for Christianity What for instance is Christianity to do with a human being at its center How has Christianity accommodated imperial rule What do we do with those imperial titles by

which he is known Lord Savior Redeemer and Son of God Taking Caesar out of Jesus presents a new portrait of Jesus based on solid historical evidence assembled from the works of hundreds of critical biblical scholars As the subtitle proclaims Jesus emerges from this book as a new figure relevant to the 21st century Some will say this new perspective destroys Christianity Others will find Jesus to be far more believable and compelling Anyone will find this progressive approach to uncovering the historical Jesus thought provoking This book however goes beyond biblical criticism and a new portrait of the historical Jesus It confronts the Christian proclamation that Jesus is humanity s savior including the notion that it needs a savior It suggests that the historical Jesus never embraced the well known notion of divine salvation To the contrary Jesus embraced Judaism s wisdom tradition In the wisdom tradition a person deals with the exigencies of life by developing a new vision of reality and by acting differently Jesus did not provide an instruction manual for living rather he pointed us in the direction of self management As described in this book this new way of living taken from Jesus s parables and aphorisms will startle some and stir others toward greater maturity and responsibility for their own lives

Theology of Religions Eugene F. Gorski, 2008

What should Catholics and indeed all followers of Jesus think about the other great religions of the world Hinduism Buddhism Judaism Islam Zoroastrianism Jainism Daoism Sikhism Shinto Might it be that the one true God is operative in these other religions working out the divine plan of salvation Or are they hindrances to God s plan What in fact is the relationship of Christianity to the other religions These are some of the questions dealt with in this book On the basis of an historical and phenomenological study of the world religions this book examines what the scriptures tradition and the teaching of the Catholic Church have to say about the ultimate meaning and value of the non Christian religions and how Catholics are to relate to the adherents of the other religions with understanding and appreciation Locating the historical origins of the world religions tracing their historical development observing the experiential phenomena from which they arise seeking to identify elements that unify them as well as pondering the questions that become evident as the result of such a study these procedures of historical and phenomenological analysis deal with issues of great significance and facilitate the author s search for and interpretation of the strictly theological data that disclose the ultimate significance of the non Christian religions Readers will appreciate this comprehensive work that reflects from a Christian Catholic point of view on the ultimate meaning and value of the non Christian religions emphasizing how they may relate to the adherents of the other religions with understanding and appreciation They will also understand more deeply the reality of Jesus the Father and the Spirit as a result of their dialogue with religious pluralism
