Christian Myth Origins Logic And Legacy:

The Christian Myth Burton L. Mack, 2001 Mack rejects depictions of Jesus that have emerged from the quest for the historical Jesus peasant teacher revolutionary leader mystical visionary or miracle working prophet on the grounds that they are based on a priori assumptions about Jesus and are therefore contradictory In addition he argues these portrayals are untrue to the many images of Jesus produced by the early Christians Using systematic analysis Mack seeks to describe and understand the cultural and anthropological influences on the conception and adoption of Christian myths and rituals

A Myth of Innocence Burton L. Mack, 1988 This imaginative book is not just a study of the Gospel of Mark but of primitive Christianity in all its variegated forms for which it represents a new paradigm It deserves serious reflection and discussion at several levels in a variety of contexts by quite diversified discussion partners James M Robinson Professor Emeritus Claremont Graduate University This is an epic making work because it turns scholarship on its head Mack asks questions not about origins but about social meaning The entire conception of what we want to know why we want to know it and how we shall find it out is new and compelling Jacob Neusner Bard College

A Myth of Innocence is the most penetrating historical work on the origins of Christianity written by an American scholar in this century Its strikingly innovative feature is the recombination of literary and social histories and the placement of diverse Jesus movements into their respective social contexts Werner H Kelber *The Catholic Biblical Quarterly*

A Social History of Christian Origins Simon J. Joseph, 2022-12-30 *A Social History of Christian Origins* explores how the theme of the Jewish rejection of Jesus embedded in Paul's letters and the New Testament Gospels represents the ethnic social cultural and theological conflicts that facilitated the construction of Christian identity Readers of this book will gain a thorough understanding of how a central theme of early Christianity the Jewish rejection of Jesus facilitated the emergence of Christian anti Judaism as well as the complex and multifaceted representations of Jesus in the Gospels of the New Testament This study systematically analyzes the theme of social rejection in the Jesus tradition by surveying its historical and chronological development Employing the social psychological study of social rejection social identity theory and social memory theory Joseph sheds new light on the inter relationships between myth history and memory in the study of Christian origins and the contemporary reconstruction of the historical Jesus *A Social History of Christian Origins* is primarily intended for academic specialists and students in ancient history biblical studies New Testament studies Religious Studies Classics as well as the general reader interested in the beginnings of Christianity

Redescribing the Gospel of Mark Barry S. Crawford, Merrill P. Miller, 2017-06-16 A collaborative project with a variety of critical essays This final volume of studies by members of the Society of Biblical Literature's consultation and later seminar on Ancient Myths and Modern Theories of Christian Origins focuses on Mark As with previous volumes the provocative proposals on Christian origins offered by Burton L Mack are tested by applying Jonathan Z Smith's distinctive social theorizing and comparative method Essays examine Mark as an author's writing in a book culture a writing that

responded to situations arising out of the first Roman Judean war after the destruction of the Jerusalem temple in 70 CE

Contributors William E Arnal Barry S Crawford Burton L Mack Christopher R Matthews Merrill P Miller Jonathan Z Smith and Robyn Faith Walsh explore the southern Levant as a plausible provenance of the Gospel of Mark and provide a detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus A concluding retrospective follows the work of the seminar its developing discourse and debates and the continuing work of successor groups in the field Features A thorough examination of the relation between structure and event in social and anthropological theory that provides conceptual tools for representing the project of the author of Mark An exploration of the southern Levant as a plausible provenance of the Gospel a permanent site of successive imperial regimes and culturally related peoples A detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus

Redescribing Christian Origins Ronald Dean Cameron, Merrill P. Miller, 2004 These essays challenge the traditional picture of Christian origins Making use of social anthropology they move away from traditional assumptions about the foundations of Christianity to propose that its historical beginnings are best understood as reflexive social experiments

Method and Theory in the Study of Religion: Working Papers from Hannover Steffen Führling, 2017-07-03 Since the downfall of the phenomenology of religion as the leading paradigm in the study of religion in the 1960s theoretical and methodological discussions surrounding the nature and identity of the study of religion as an academic discipline have proliferated The essays included in this volume approach these debates from a variety of angles Based on a series of talks held at the University of Hannover over the last few years the essays are intended to be understood as diagnostic works in progress and thus as working papers all of which strive to point out important problems and perspectives in the field of theories and methodology and to draw attention to the future of the discipline Using developments in Hannover as a launch pad the volume forms the basis for further insights into the direction of the study of religion as a discipline at large

The Symbolic Jesus William E. Arnal, 2015-08-12 It is widely accepted that Jesus was a Jew However both Christian and New Testament scholarship have a strong anti Jewish history The Symbolic Jesus presents the controversies surrounding the Jewishness of Jesus It examines the insistence among historical Jesus scholars that Jesus was a Jew and the ways this frames the figure of Jesus in ancient Christian literature The book examines the anti Jewish legacy of the past and more recent approaches to biblical scholarship Contemporary identity issues scholarly political religious and cultural are shown to lie at the heart of the debate

Routledge Companion to Christianity in Africa Elias Kifon Bongmba, 2015-12-22 The Routledge Companion to Christianity in Africa offers a multi disciplinary analysis of the Christian tradition across the African continent and throughout a long historical span The volume offers historical and thematic essays tracing the introduction of Christianity in Africa as well as its growth developments and effects including the lived experience of African Christians Individual chapters address the themes of Christianity and gender the development of African initiated churches the growth

of Pentecostalism and the influence of Christianity on issues of sexuality music and public health This comprehensive volume will serve as a valuable overview and reference work for students and researchers worldwide *Is This Not The Carpenter?* Thomas L. Thompson, Thomas S. Verenna, 2017-09-19 The historicity of Jesus is now widely accepted and hardly questioned by most scholars But this assumption disarms biblical texts of much of their power by privileging an historical interpretation which effectively sweeps aside much theological speculation and allusion Furthermore the assumption of historicity gathers further assumptions to it shaping the interpretation of texts both denying and adding subtext Scholars are now faced with an endless array of works on the historical Jesus and few question what has been lost through this wide spread assumption of historicity *Is This Not the Carpenter* presents a very valuable corrective a literary rereading of the New Testament *Why Christianity Happened* James G. Crossley, 2006-11-03 Looking beyond theological narratives and offering a sociological economic and historical examination of the spread of earliest Christianity James Crossley presents a thoroughly secular and causal explanation for why the once law observant movement within Judaism became the beginnings of a new religion First analyzing the historiography of the New Testament and stressing the problematic omission of a social scientific account Crossley applies a socioeconomic lens to the rise of the Jesus movement and the centrality of sinners to his mission Using macrosociological approaches he explains how Jesus Jewish teachings sparked the shift toward a gentile religion and an international monotheistic trend Finally using approaches from conversion studies he provides a sociohistorical explanation for the rise of the Pauline mission **Unity and Diversity in the New Testament** James D. G. Dunn, 2006 A challenging textbook for level two and three New Testament scholars The new material is the author's critical refinement of all the original issues covered New Testament study the synoptic question and the origins of Christianity are all fundamental areas of study on theology undergraduate degrees today **The Limits of Ancient Biography** B. C. McGing, Judith Mossman, 2006 The genre of biography in the ancient world is interestingly diverse and permeable and deserves intensive study bearing as it does on ideas of characterization and the individual This volume considers both the form and the content of biography across the ancient world and is particularly interested in the frontiers with other related genres such as history The papers range from the Old Testament to the Arab world from the New Testament to the Lives of Saints from the classic Greek and Roman biographers to less well known practitioners of the art **Mapping and Engaging the Bible in Asian Cultures** Society of Asian Biblical Studies. Conference, Yöng-mi Yi, Yoon Jong Yoo, 2009 *Christianity and Culture* Martin S. Reed, 2002 In over 2 000 years Christianity has made the overwhelming impact on the culture of the Western world in particular But culture has also helped to shape the development and form of Christianity since the interaction of two such powerful phenomena cannot help but change the other This new book brings together over 1200 citations on Christianity and Culture which are indexed by subject title and author for easy access *Text and Community* J. Harold Ellens, 2007 Bruce Manning Metzger New Testament professor emeritus at Princeton Theological Seminary died in February 2007 at the age of

Research Institute for Theology and Religion. Symposium, C. W. Du Toit, 2002 **Lux Humana, Lux Aeterna** Antti Mustakallio, Heikki Räisänen, 2005 **Jesus in an Age of Terror** James G. Crossley, 2008 This book applies the work of Noam Chomsky Edward Herman Edward Said and several others on international politics and the supportive role of the media intellectuals and academics to contemporary Christian origins and New Testament scholarship Part One looks at the ways in which New Testament and Christian origins scholarship has historically been influenced by its political and social settings over the past hundred years or so Moving on to the present the following chapter then applies Herman and Chomskys propaganda model of manufacturing consent in the mass media to the recent explosion of biblical scholars writing on the internet in particularly biblio bloggers It is clear that political views in biblio blogging conform strikingly to the emphases that come through in Herman and Chomskys analysis of the mass media and intellectuals particularly with the standard lines on the war on terror and views on the contemporary Middle East The rest of the book takes up modified key areas of the propaganda model in more detail Part Two looks at the Orientalist rhetoric of clashing civilisations and how this relates to the war on terror and the creation of Islam Arabs Middle East etc as the Great Enemy in the media and relevant intellectual thought since the 1970s and to use Derek Gregorys phrase hideously emboldened in the war on terror The next chapter then shows how this context has had a highly noticeable impact on the use of social sciences in New Testament and Christian origins scholarship in particular the stark generalisations of scholars using cultural social anthropology based on contemporary studies of the Middle East Disturbingly some of this scholarship has many rhetorical links with Anglo American foreign policy interests in the Middle East and beyond making some politically charged statements that cohere closely with recent intellectual defences

of actions in Iraq Palestine and beyond Part Three looks at issues of Palestine and Israel in the media alongside Christian secular and relevant intellectual thought since the Six Day War of 1967 focusing in particular on the dramatic shift towards widespread support for Israel This also includes an analysis of the recent and controversial case of Nadia Abu el Hajs tenure at Barnard The following chapter shows how this interest in Israel has had a profound impact on historical Jesus and Christian origins studies particularly the strange emphasis on Jewishness and misplaced allegations of antisemitism since the 1970s Despite the shift in support of Israel this is rarely done for love of Jews Judaism Israel or Israelis because there remains a notable cultural political and religious superiority in Anglo American scholarship While owing much also to an Orientalist tradition this too is strongly echoed in scholarship of Christian origins where for all the emphasis on the Jewishness of Jesus and the first Christians it is extremely common to find Jesus or the first Christians being better than Judaism or overriding key symbols of Judaism as constructed by scholarship done ironically by frequent ignoring of relevant Jewish texts The end results of contemporary scholarship are not dramatically different from the results of the anti Jewish and antisemitic scholarship of much of the twentieth century
