PRELIMINARY VERSION This is about deep Christian Science the full scope of the Science of Christ healing discovered in 1866 by Mary Baker Eddy which she developed and expanded over a span of 44 years She is reported to have once said I am going to write a book that will change the world This she did indeed By her dedication and achievements she became one of the greatest scientific geniuses of her time Her stature as a world historic person reflects a number of pioneering achievements that she is widely honored for which have uplifted the face of civilization in numerous respects She is noted for her dedication to advancing the status of women for ennobling Christianity with a scientific dimension for reinstating its nearly lost element of Christ healing and for her discovering and founding of Christian Science Yes she did write a book that changed the world a book of science of spiritual divine Science She is known today as the Discoverer and Founder of Christian Science and the author of its textbook Science and Health with Key to the Scriptures which she had constantly revised and upgraded in the course of more than 400 editions of the book keeping the book in line with her own scientific development over the space of its 35 years in her hands since its first publication in 1875 In celebrating the 150th Anniversary of her discovery of Christian Science in 1866 it is appropriate that the historic dimension of Mary Baker Eddy be enriched with a specific focus on the scientific aspects of her work This is the purpose of this book She has accomplished enormously on this front far more than what society gives her credit for most of which remains generally unknown If a historian had asked her in her time what she had most wished for in her life she might have answered that she had labored for 44 years to give to humanity the clearest sense possible of the acme of Christian Science which means that all other accomplishments where subsequent to it and reflect it This book reaches deep in to the details of her discoveries and her scientific work to make her discoveries accessible **The Christian Science Journal** ,1927 *Sermons which Spiritually Interpret the Scriptures and Other Writings on Christian Science* Augusta Emma Stetson,1924 Retrospection and Introspection Mary Baker Eddy,1979 The Origin of Christian Science Thomas Polhill Stafford,2020-09-28 One of the most remarkable movements of modern times is Christian Science It claims hundreds of thousands of adherents It has gone into many lands It has made converts of the rich and the poor the educated and the illiterate of the mighty and the meek When we

note that it has accomplished this in the brief period of less than fifty years and consider the radical character of its teaching affecting profoundly its followers religiously medically socially and intellectually we are the more ready to wonder at its rise and progress Christian Science is associated with the name of Mary Baker G Eddy She claims to be the discoverer and founder of it And this claim is reiterated by all loyal Christian Scientists No decrees issuing from the Vatican have found a more ready response from loyal subjects than the expressed will of Mrs Eddy and no Pope it seems has assumed such sublime right to give commandments to mankind I am concerned in this essay with only one thing namely Mrs Eddy s claim to be the discoverer and founder of Christian Science The ability of Mrs Eddy can be and I think should be freely conceded In fact she has proved herself to be a genius Her moral character too has stood very well the fierce fires of criticism though there are some things in her history and some qualities in her disposition that are not flattering These matters however weigh nothing as concerns the question before us in this discussion namely the original source of the principles of Christian Science

Christian Science and the Ordinary Man Walter S. Harris, 2018-01-18 Excerpt from Christian Science and the Ordinary Man A Discussion of Some of the Teachings of Mary Baker Eddy Discoverer and Founder of Christian Science I should add to this foreword the statement that while this book has in its title the words Christian Science the author is one who believes that all mankind are on the way to final and conscious unity with God Many theories of truth held by men have elements of real truth in them which elements of real truth as the leaven which leavens the whole lump will the author believes eventually lead their followers through experience out of those portions of their belief which are untrue and into the one way of truth which is that trod by Christ Jesus This book in addition to being a discussion of Christian Science is in part an attempt to set forth the essential true elements existing in some other beliefs to the end that a starting point may be found for greater brotherhood among all churches and beliefs a basis in Christ for the Brotherhood of Man About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
