**Indigenous Apostles** Ruth J. Chojnacki, 2010 Jean Meyer Centre for Research and Teaching in Social Sciences Mexico City Book Jacket **The Word Became Flesh** K. P. Kuruvila, 2002 **Towards African Missiology** Francis Anekwe Oborji, 2020-11-22 This volume reflects on a credible and a new language of Christian mission in Africa The author s thoughts and approaches not only provide a missiological insight which contribute to the repertoire of expanding fresh ideas in the

missiological studies but also serves the purpose of highlighting the active participation of Africans in the missionary mandate of Jesus Christ. In other words, the scope of missiology needs a contextualized interpretation. Thus, he proposes a proactive language for missiology in Africa, thereby underlining Africans as normal and full members of the human family. In the light of the Vatican II mission theology, the new language should be based on the fact that Africans will grow and do better in admiration and not in sympathy. Interestingly, the arguments in this volume open the space for the ongoing discussions in the mission of the church in the era of secularization and post-modernity. Consequently, a new language for missiology in Africa will come from the retrieval and modernization of our African cultural matrix pursued from the point of view of the daily struggles of the Africans themselves for survival, which also addresses Africans in the spirit of cooperation.

Christianity and Cultures Norbert Greinacher, 1994. Irreplaceable as a reference to where Catholic theology is at any given moment. Concilium maps the state of the most pressing questions with solid contributions from leading theologians and cutting-edge voices. Each volume addresses major issues in dialogue with wider public discourses, regularly engaging perspectives from the religions of the world. For volumes of substance, breadth, and insight, Concilium provides a most impressive response to the most important issues in theology today. Jeannine Hill Fletcher, Fordham University. *Journal of Hispanic/Latino Theology*, 1993.

**Christianity and Culture** Martin S. Reed, 2002. In over 2,000 years, Christianity has made the overwhelming impact on the culture of the Western world, in particular. But culture has also helped to shape the development and form of Christianity, since the interaction of two such powerful phenomena cannot help but change the other. This new book brings together over 1,200 citations on Christianity and Culture, which are indexed by subject title and author for easy access.

**Context, Culture and Worship** Paul M. Collins, 2006.

**Religion Index Two**, 1999.

**Missiology** Laurent W. Ramambason, 1999. Missiology is the study of mission, of the persons who are active in Christianisation, with attention to the dialectic of personhood. Mission is what a mission worker thinks it is. The understanding of missiology is illustrated with reference to the Church of Jesus Christ in Madagascar under the impact of the Gorbachev transition, 1985-93.

**Faith and the Future** Johann Baptist Metz, Jürgen Moltmann, 1995. In complementary ways, these authors have emphasized the eschatological character of Christianity in a way that does justice both to the transcendent and to its worldly implications of the gospel. This book brings their work into a unique dialogue.
