Christianity Among the Religions E. L. Allen, 2020-12-17 Originally published in 1961 *Christianity Among the Religions* examines whether it is possible to learn from other religions without compromising on personal religious loyalties The book traces from the thirteenth century the gradual awakening of the West to the spiritual qualities of other religions and the various efforts made to place them in relation to Christianity It explores the reports sent home by Jesuit missionaries in China the advance in knowledge in nineteenth century Europe and the gradual decline in Western provincialism In doing so the book puts forwards suggestions for the relation between Christianity and other religions and calls for open conversations between representatives of different faiths with the aim of increased unity of spirit *Christianity Among the Religions* will appeal to all those with an interest in the history of Christianity and religious studies more generally *Christianity Among the Religions of the World* Arnold Toynbee, 1957 Surveys the position of Christianity in relation to other religions and in the face of the resurgence of collective self worship **The Place of Christianity Among the Religions of the World** Joseph Estlin Carpenter, 1904 **Christianity Among the Religions of the World** Carlos G. Martin, 2007-06-15 This work examines the religions of the world from the particular perspective of Christianity It aims to accomplish a dual goal 1 to provide an introductory review of the historical development of the religions of the world and a description of their belief systems and 2 to explore avenues for an effective Christian witnessing among those who follow them *Christianity Among the Religions of the World* is appropriate for students and educators in Christian colleges universities and seminaries **The Place of Christianity Among the Religions of the World (Classic Reprint)** Joseph Estlin Carpenter, 2017-12-26 Excerpt from *The Place of Christianity Among the Religions of the World* The fourth chapter was prepared at the invitation of the Committee of the International Council of Unitarian and other Liberal Religious Thinkers which held its second meeting at Amsterdam in September 1903 A few passages in the section on Hindu thought have been expanded in order to bring out more clearly the contrasts between the fundamental conceptions of religious experience in the Indian and the Hebrew developments In tracing the barest outlines of the succession of faiths and endeavouring to estimate their relative spiritual significance it is inevitable that those who speak from the outside should lay a different emphasis on the same facts compared to those who speak from within Just as the art the poetry the ethical types of the higher races vary so also must the specific expressions of faith The time has not yet come when the East and the West can see eye to eye But we are daily learning new lessons of sympathy and reverence To help however imperfectly to enforce this teaching is the purport of the following pages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do

A Tapestry of Faiths Winfried Corduan, 2009-06-01 Christians find themselves in an increasingly diverse world The new place of worship in our neighborhood might just as likely be a Hindu temple or a Muslim mosque as a church or a synagogue How should we view other world religions and more important how should we engage our religiously oriented neighbors in conversation Do all religions teach the same thing Or are there

significant differences Do we try to minimize differences and just get along Or do we hold out the Christian faith as the one true hope for all the world Drawing on his wide experience and knowledge of other religions and how they are actually lived Winfried Corduan helps us sort through the complex tapestry of faiths around the globe He contends that there are common threads of understanding that can serve to link us in meaningful discussion From these common threads we can go on to explore genuine differences Through the course of the book Corduan leads readers to explore the important issues of revelation and truth morality and guilt grace and redemption eschatology and hope Ultimately Jesus Christ he argues stands unique among religious figures and Christianity unique among the world s religions This is a book that strengthens Christians in their convictions while encouraging them to engage their neighbors with humility loved and discernment

No Other Gospel Carl E. Braaten, 2000-08-31 With increasing awareness of the permanence of religious pluralism and increasing acceptance of other religions as valid ways to God some theologians have argued that Christianity needs to abandon its traditional biblical claim that Jesus is the unique normative decisive and final self revelation of God and the salvation of the world Braaten s response is an unequivocal reassertion of the exclusive claim of the gospel To do so he surveys the range of current options and dives into questions of the uniqueness of Christ the absoluteness of Christianity and the universality of salvation Working with concepts of justification eschatology and Trinity Braaten affirms that the gospel relativizes other religions The gospel however also relativizes Christianity Thus Christianity s strong claims for Christ need to be tempered by acknowledging that Christians do not know beforehand the final outcome of God s unfolding plan for the world Although not all will agree this book is an important call to Christian conscience from a theologian who sees Christian theology teetering on the brink of confusion

The View From Mars Hill Charles B. Jones, 2005-04-25 What are Christians to make of religious diversity Are other religions simply wrong Is this great multiplicity something to appreciate and foster Is there any way to judge whether one religion is better than another or are all equally good options What has brought about such a wealth of diversity and tension in the first place Charles Jones traces the rich history of Christianity s many encounters with other religions from the Roman Empire and Paul s speech to the Athenians on Mars Hill Acts 17 16 34 to the discovery of non European peoples through various currents of philosophy and science and in both the peaceful and violent meetings of Christianity and other religions today Jones suggests that there are patterns to the way people meet across religious boundaries He helps us see the tension between our desire for religious coherence and our need to build bridges to avert conflict and foster good relations the tension between integrity and openness By the end of the book readers will have a sense of the history of Christianity s engagement with religious diversity as well as tools to move interfaith life forward Excellent for parish education and informal discussion groups this eye opening guide takes a vital step in our understanding of our roles in a world of religious diversity

Faith Among Faiths James Lee Fredericks, 1999 In the twenty first century the meaning of non Christian religions for Christian faith will become a central question Are all religions including Christianity

responding to the same transcendent truth or are religions fundamentally different In *Faith among Faiths* James Fredericks moves beyond the popular pluralist model of religions and explores the meaning of Christianity in light of non Christian religions By doing theology comparatively Fredericks shows how Christians can look upon religious diversity as an opportunity for enriching their own spiritual quest
