Law, Ethics, and the Visual Arts John Henry Merryman, Albert Edward Elsen, Stephen K. Urice, 2007-01-01 This book describes the collisions between the art world and the law with a critical eye through a combination of primary source materials excerpts from professional and art journals and extensive textual notes Topics analysed include the fate of works of art in wartime the international trade in stolen and illegally exported cultural property artistic freedom censorship and state support for art and artists copyright droit moral and droit de suite the artist's professional life and death collectors in the art

market income and estate taxation charitable donations and works of art and art museums and their collections The authors are recognised experts in the field who have defined the canon in many aspects of art law **Models of Integrity** Joan Kee, 2019-02-12 Models of Integrity examines the relationship between contemporary art and the law through the lens of integrity In the 1960s artists began to engage conspicuously with legal ideas rituals and documents The law a primary institution subject to intense moral and political scrutiny was a widely recognized source of authority to audiences inside the art world and out Artists frequently engaged with the law in ways that signaled a recuperation of the integrity that they believed had been compromised by the very institutions entrusted with establishing standards of just conduct These artists sought to convey the social purpose of an artwork without overstating its political impact and without losing sight of how aesthetic decisions compel audiences to see their everyday world differently Addressing the role that law plays in enabling artworks to function as social and political forces this important book fills a gap in the field of law and the humanities and will serve as a practical how to for contemporary artists Christo ,1977
